About Us

Abator builds IT engagement teams with core competencies in information and project management; systems, applications and web development; technical support; system engineering; systems integration; data warehousing and database administration. Abator is a certified DBE, DOBE, and WBE with a corporate culture and management style based on developing quality relationships that will continue to last decades. Recent program responsibilities include:

- Project Management Office Support with Risk and Change Management focus;
- Quality Assurance/IV&V;
- Migrations & Modernization (e.g. legacy to .NET);
- Rapid development of ultra-secure apps;
- MOTS: Modifiable off the Shelf Software Solutions;
- Custom applications development & maintenance;
- Database Administration & Data Warehousing; and
- Reporting Solutions (local, state & federal regulatory reporting compliance).

Recent engagements have included:

- IES: Business systems analysis for state integrated eligibility systems.
- IVR: Upgrade and deploy new voice recognition system for a state attorney general.
- EHR: Providing technical analysis and support of electronic health records systems (Cerner, McKesson, EPIC and Soarian).
- WIC T&I: Lead Quality Assurance, technical writing, video and training materials development in support of the Federally-mandated EBT compliance initiative implementing WIC-on-the-Web (WoW).
- Architectural Planning: Development of processes to extract, transform and analyze space usage data to support predictive analyses.
- Major pharmacy chain: Developed biometric security application collecting fingerprint data to issue a pass ticket for pharmacy fulfillment systems.
- Designed and deployed web-based Pathology Lab client tracking system.
- Managed installation of OS/390 1.3, 2.6, 2.9 & 2.10 (UNIX certified) and 3rd party software.
- Performed DB2, Oracle, SQL Server, Sybase and UNIX/Windows Administration.
- Conducted a complete client and server-side profile and element analysis for a new NYSE Web Site.
- Managed, designed/deployed state systems and databases responsible for hundreds of millions of dollars in revenue from Federal funding, Fraud Detection, Child Support, Employment Security and Drug Rebate programs, for multiple states.

Commerce for All!

- *GetDiversityCertifie.com Division*: Counselling and supporting small, minority and women owned enterprises in identifying, applying for and managing diversity certifications.
- *360-Access.com Division*: Mapping the unique existing ADA (Americans with Disabilities Act) accessibility features of public spaces connecting People with Disabilities (PWDs), their families, friends, caregivers, and associates to accurate information.
