

Aids for Daily Living

- The main goal in creating these products is to offer effective solutions to the challenges faced by the elderly, the disabled, and adults or children with special needs.
- These products will allow these persons to become more independent and require less assistance by their caregiver.
- ADL products cover a wide range of activities such as dressing, grooming, eating, homemaking and leisure.

Comfort Mobility supplies many items that can make what were once simple tasks for you, even simpler!
There is a product out there for every need so if a catalogue is missing something you need, feel free to contact us and we will find it!

 Clamping Side Tray <input type="checkbox"/>	 Bone Pillow <input type="checkbox"/>	 Palm Protector <input type="checkbox"/>	 One Touch Openers (Jar, Bottle, or Can) <input type="checkbox"/>

Bathroom Safety Tips

- De-clutter your space, making sure it is well lit.
- Try to keep all surfaces as dry as possible.
- Get a Grip! Use a grab bar wherever you need support.
- Use a tub rail or transfer bench to get in and out of the tub.
- Use a bath chair or stool to sit on while bathing.
- Use a handheld shower with an extra-long hose to wash.
- A bath mat can provide a large, slip-proof surface.
- Consider a toilet safety rail for added support (or stand-alone model that folds to put away)

At Comfort Mobility, we take bathroom safety very seriously. In some circumstances, the bathroom can be the most dangerous room in your home. We strive to eliminate the dangers you could face in your bathrooms by providing the best equipment to suit your every need.

Mobility Safety Tips

- Lightweight transport chairs are great for travel, plus save your spouse or caregiver's backs wherever you go.
- It is NOT safe to use your rollators as transport chairs!
- "Glowing" canes are available making it easier to walk at night. Also available are folding canes for part-time use.
- Using a wheelchair not properly fit to your specific needs can result in worsening condition. Trust Comfort Mobility to make sure your chair is perfect for you!

We offer a wide variety of different mobility equipment to suit your personal needs.

If you are unsure of what is the best option for you, contact your doctor, occupational therapist, nurse or call us for an assessment.

Other Recommendations:

Bedroom Safety

- Most seniors prefer to stay in the comfort of their homes rather than moving to nursing homes.
- With every hospital bed purchase or rental, look at other products that can help improve the patient's daily quality of life such as beside commode, bed assist rail or handle, tilt over bed table, lift or trapeze bar.
- Use of disposable products such as urinals, and bed pans should be replaced periodically to avoid infection.

We carry a wide variety of Bedroom Accessories from Hospital beds, to custom bedding, rails and more! Most of these items are kept in stock at our store and can be delivered as early as same day. Not sure of what is best for you? Stop by or visit our website www.comfortmobility.ca
