

WHY PENTECOST IS IN THE 4TH MONTH

JESUS' 120 DAY RAPTURE COUNT CLUE TO THE END OF THE SUMMER WHEAT HARVEST OF SOULS

The purpose of this illustration is to depict how, perhaps, the Greatest Rapture Timing Clue was given by Jesus Himself. This pertains to the Statement, 'Are there not 4 Months and then comes the Harvest?' One argues that the 1st Century Israelites and the Ancient World recognized that Jesus was alluding to the 120 Day Count from the Spring Equinox of the Wheat Harvest. And that in turn, correlated to the July 23 Day that one surmises was the Acts 2 Pentecost Event. Wheat planted on the Spring Equinox has a 120 Day Cycle. Thus, one presents the 120 Day Rapture Theory. Note that for 2024, the Western Calendar will have 2 New Year Solar Eclipses in Nisan and Tishrei. Then the July 23 Summer Wheat Harvest is in Phi Ratio to these 2 New Year Eclipses. Coincidence? No. The last Time 2 Jewish New Year Eclipses occurred in the same Western Year was in 2015 that concluded the 2014-15 Blood Moon Tetrad. Will the Rapture occur on that 'Last Day' of the Wheat Harvest, Astronomically that also corresponds to the Sign of the King, Leo? The Sign has the Sickle Motif as Jesus is the LORD of the Harvest and He alluded that the Church Age would be about a Wheat Harvest, of Souls, etc.

You Say, 'Are there not 4 Months and then comes the Harvest?' -Jesus

The Sign of Leo starts in July 23, and signifies the End of the Summer Wheat Harvest. The Head of Leo is also a Sickle Motif. Acts 2 Pentecost is correlated to this Last Day of the Harvest based on the 120 Day Count from the Spring Equinox when the Spring Wheat is Planted.

2024

30 30 30 30 = 120th Day - Rapture Timing?
