This Permit is being issued based on the following conditions being met.

1. Prevailing winds at the time of burning are away from the major portion of the area's population and away from any major throughfare.
2. The location of the burn is at least 1,000 feet from any occupied structure.
3. The amount of dirt on or in the material being burned is minimized.
4. Heavy oil, asphaltic materials, items containing natural or synthetic rubber, or any material other than plant growth are not being burned; and
5. No more than one pile 60 feet, or equivalent, is being burned within a 9-acre area at one time.
6. Use of fans (Air Curtain Destructor) may be allowed at the discretion of the fire Official. If a fan(s) is used, the "Air Curtain Destructor regulations" prepared by the NGA Regional EPD must be followed. A copy of this document is on file at the Fire Official's Office.
7. The area must be attended constantly by a competent person until the fire is extinguished. Such person should have a supply of water or other extinguishing equipment available for use.
8. A copy of the deed must be attached to the application.
9. These conditions must be met until the fire is extinguished.

Note: Violation(s) of this approved Burn Permit are subject to full disciplinary actions which include revoking permit and /or fine(s) which have been set forth by the Commission authorizing the conditions of this permit.

**THIS PERMIT MUST BE SUBMITTED TO THE CORDELE FIRE DEPARTMENT  
IN PERSON BEFORE ANY BURNING CAN BEGIN.  
509 NORTH 7TH STREET - CORDELE**
