

Village of Millerton

Dutchess County New York

APRIL 2017

Hello everyone.

The harsh weather seems to be breaking and hopefully we can get some t-shirt time in soon. This will be my last newsletter as your mayor, since I've decided not to run again. Being on the board for approximately seven years as a trustee, and four years as the mayor, have truly been an adventure. My belief of a government that is so small you don't even know it's there wasn't always embraced with open arms by the people around me, but I think it has made an impression on some. I listened to the residents long, unanswered concerns and made the correct changes to address them. In the end I can walk away with many accomplishments. The people working in the Village Hall and the Highway/Water Departments help make this village run and look as great as it does. I thank them for their dedication. This village is a tight knit community of people that care, and it really shows. Thank you to Townscape for contributing both time and money to make Millerton "one of the coolest small towns in America" . The Legion and the Historical Society also do a great job and I thank them as well. Thank you to the board for putting up with me for all this time. A very big thank you to the residents who believed in me and supported me. With the economy in the state that it was in, I felt it was essential to keep the taxes as low as possible. As a result, myself and the board did not raise the village taxes at all over the last four years. I can't say that it can always be held at a zero percent increase but considering the economic circumstances I thought it was necessary. I wish Mayor Debbie Middlebrook and the new board all the best.

Thank you,

Marty Markonic, Mayor

Arbor Day

Arbor Day (from the Latin *arbor*, meaning tree) is a holiday in which individuals and groups are encouraged to plant and care for trees. Today, many countries observe such a holiday. Though usually observed in the spring, the date varies, depending on climate and suitable planting season.

In the United States Arbor Day was founded in 1872 by Julius Sterling Morton in Nebraska City, Nebraska. By the 1920s, each state in the United States had passed public laws that stipulated a certain day to be Arbor Day or Arbor and Bird Day observance.

National Arbor Day is celebrated every year on the last Friday in April; in Nebraska, it is a civic holiday. Each state celebrates its own state holiday. The customary observance is to plant a tree. On the first Arbor Day, April 10, 1872, an estimated one million trees were planted.
