* Window Type Bows

Fleet-Glas Bows are supplied with Dacron Bowstrings and Nylon Servings.

Here are finest-quality solid fibre-glas bows on the market. They have been tested in a 600 hour salt spray test, have withstood 300 hours in a Weatherometer and have survived gruelling tests of stress and flexibility. The beautiful high-gloss finish is chip-proof, stain-proof, and moisture-proof.

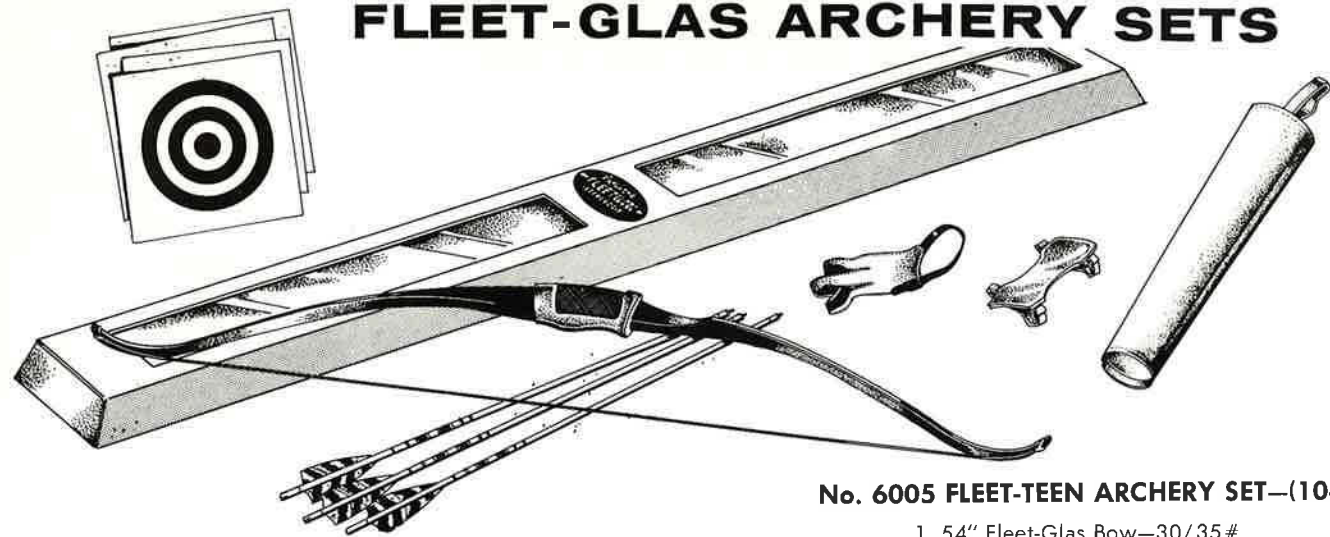

All Fleet-Glas Bows are beautifully finished in *Epoxy*.

WINDOW TYPE BOW—PLASTIC HANDLE . . . provides sure grip and ample space for arrow rest for either center shot or for right or left hand shooting.

All bows hand nocked.

| 1046-0 | Fishing (Detachable Point) | \$1.25 | \$7.50 |

CARE OF ARROWS

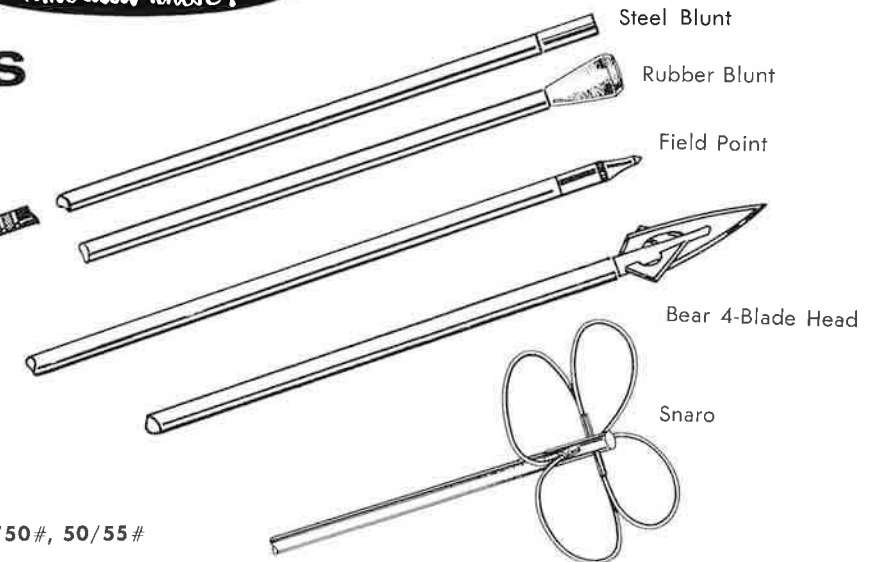

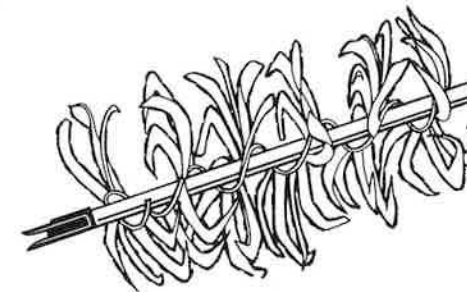

Arrows are usually susceptible to warping, they can be easily straightened in your hands if bent in the opposite direction. Bend lightly and gradually. If held about 10" over a gas flame or over a steaming teakettle will also add to the ease of straightening them.

When feathers on the arrows become disheveled they can be easily re-dressed and returned to their original shape by holding a few inches above a steaming teakettle and then working the feathers gently with your fingers until the original shape has been restored.

FLU-FLU ARROWS

4-Fletch available at an additional cost of \$2.00 per dozen list.

NOTE: Be sure to state your draw length and bow weight. For best results use Epoxy Cement to install points, adapters and hunting heads.

FLEET-EASTON ALUMINUM SHAFTS and ARROWS

Made of Easton 24SRT® or XX75® aluminum shafting. By far the best material ever made for the manufacture of precision arrows . . . produced solely for arrow shafts . . . to improve your shooting. Consistent identical uniformity in spine, weight and balance . . . perpetually maintained. Precision fletched with select feathers. Dyed white feathers will be used when available. Special cresting will carry an extra charge of \$1.00 per dozen net. All sizes and lengths available. (31" and 32" on special order . . . add \$1.20 per dozen list).

| 55 lb. | 24SRT XX75 | | | 1718 | 1818 | 1918 | 2018 | 2020 | 2020 | 2219 |

When ordering aluminum arrows be sure to specify arrow length and bow weight. Selection of shaft will be governed by Easton's shaft selection chart (right) applicable to 24SRT-X®, and XX75®.

MICRO-FLITE SHAFTS AND ARROWS

Micro-Flite shafts are made absolutely straight and since fiberglass is impervious to the elements and unbelievably resilient to the forces of head-on impact, they stay straight. They will not corrode, become misshapen from any cause, or crystallize and, through years of usage, will maintain all their original qualities. Critically controlled production methods provide such absolute uniformity that every shaft is the twin of every other shaft in its production run. ■ Micro-Flite shafts are made in eleven different diameters and weights starting with a Size O, which has an outside diameter of .250 inches, and increasing in increments of .010 inches up to a Size 10 shaft which measures .350 inches. See charts below.

TRAINING GUARD

4024 Training Guard **\$2.95**
Designed for beginners. Protects the entire forearm. Recommended especially for ranges and schools.

"King of the Forest"

FLEET HUNTING HEADS — Two, Three and Four Blade

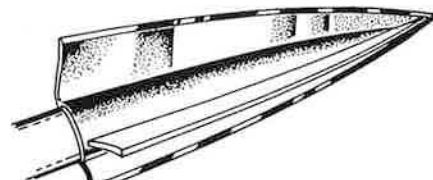

DURABILITY—These heads have been shot into bricks, heavy gauge metal, etc., from heavy hunting bows without so much as dulling the point; tests which would demolish most any other head.
Size 1 1/8" x 2 3/8". Weight 125 grains. Made in two sizes 11/32" and 5/16". Please state size desired when ordering.

FABRICATION—All Fleetwood Broadheads are spot welded in place then electrically welded by a process which makes the joint stronger than the metal itself. Guaranteed forever against the weld breaking. Finest quality spring steel, tempered and drawn to the hardest possible yet not brittle razor keen edge.

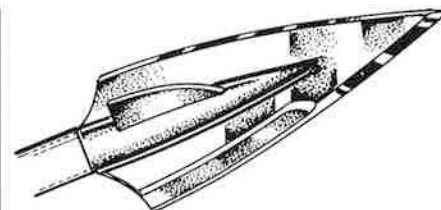

Lic. under Pat. No. 2,373,216

FRED BEAR Razorhead

TWO BLADE and FOUR BLADE
Fits 5/16" — 21/64" — 11/32" Shafts

No game species in North America has proven too big or too tough for Razorhead. Designed by Fred Bear for more humane sport and greater bow-hunting success.

FRED BEAR RAZORHEADS—Four Blade
Consists of: One dozen Fred Bear Two Blade broadheads and a dozen razor-auxiliary blades with slot cleaning tool.
1172-1 Doz. **\$7.20**

AUXILIARY BLADES
Used to convert Two Blade, or as extra blades for Razorhead. One dozen per package. Weight 10 grains each.
1150-1 Doz. **\$2.00**

TWO BLADE BROADHEADS
Standard 5° taper fits both 5/16" and 11/32" shaft. 115 grains. (Length 2 1/2", width 1 1/8").
1149-1 Doz. **\$5.20**

PROVED ON THE WORLD'S GAME TRAILS

Fred Bear's Razorhead is two blades in one. The large blade is mill-tempered steel, sharpened to a long, keen bevel. Its ferule is slotted to receive a thin razor-steel pre-sharpened auxiliary blade, which can be replaced in the field in seconds.

DO IT YOURSELF ACCESSORIES

ARROW KITS — Ideal for Schools, Camps, and Archery Clubs. An attractive kit complete with all the necessary materials, tools, and instructions for the archer who likes to assemble his own arrows. No more wasted time for your salesman hunting small, hard-to-find tools, nocks, feathers, etc. Tools can be used hundreds of times, materials in kit are for one dozen arrows. Stock all three kits — for Target, Field and Hunting Arrows.

| 5085 12" lengths | each 15c |

NOTICE

OFFSET DIRECT FROM CATALOG

No longer is it necessary to use special lay-outs for offset printing as this catalog is printed black-on-white on heavy high-gloss stock, making it even better than printer's proofs.

Likewise, cuts and etchings can be made by you to any size you need by reproducing direct from the catalog pages the same as though you used glossies.

Therefore, we do not furnish cuts, mats, or electros, as everyone requires different dimensions and mechanical specifications.
