

New Year, New Partnership...Total Futsal and PISA Partner for Youth Futsal Leagues

Pittsburgh, PA - Total Futsal and the Pittsburgh Indoor Sports Arena (PISA) are announcing a strategic partnership to deliver USFF sanctioned youth futsal league play starting in January. PISA has recently completed an expansion project adding 12,000 square feet of premier multi-sport hardwood court surfaces. Total Futsal will be incorporating two full-size futsal courts into its second session of league play beginning in mid-January.

"PISA is the premier destination for indoor sports in Western Pennsylvania and Total Futsal is pleased to bring our brand of USFF sanctioned futsal to this new, first class court expansion," said Craig Wilkins, co-owner of Total Futsal. "We are committed to providing the absolute best game experience for our teams. Professional quality courts with futsal-specific markings, convenient access with ample parking, and comfortable parent viewing areas are an important part of that experience."

Total Futsal will participate in the grand opening for the new facility on January 7th, including the first official games on the new courts. Doors will open at 9:30 with refreshments, FREE prizes, and a variety of demonstrations such as Roller Derby, Pickleball and Futsal. Additional amenities at PISA include both a Café and Sports Pub where games will be live streamed for parent viewing. PISA will also highlight a futsal Game of the Week including a game replay and pizza party for the winning team.

"With our new expansion of hard courts, PISA is continuing to take great steps to advance our sporting and event opportunities. With our collaboration with Total Futsal, it will continue to solidify PISA as an elite facility. We are ecstatic to collaborate with Total Futsal and Craig to bring Futsal to PISA and dedicated to offering premier sports to our participants," said Lance Welliver, General Manager of PISA.
