# How to Make a Stegosaurus Hat

5 paper (not Styrofoam) plates
4 ft colorful yarn
Stapler
Color markers

Fold paper plates in half.   Line up 4 plates (folded edge down) and staple together at ends.

Staple the 5th plate (folded edge up or to the right) at an angle to the 4th plate.

Punch holes in the 5th plate. Tie 1 piece of yarn to each hole.
Decorate and add colorful designs.

Place the angled 5th plate on top of your head, tie the yarn under your chin, and let the plates drop along your back. Now you have a stegosaurus hat!
