

Early Learners Centre Pre School

Learning Journeys

Recording your child's learning journey.

Personalised Albums

We offer all parents the opportunity to have one of these lovely and unique children's memory keepsakes.

Learning Journey Albums comprise photos of your child in action, some of their artwork, handprints, observations and achievements whilst at the setting. It is important to extend this learning journey to the child's home environment. You can contribute by informing us of special events, providing photos of outings, first words, sentences, jumps, anything. This all helps to build a picture of your child and how they are developing. This in turn helps us to meet their interests and needs and extend their learning accordingly.

Writing Books

Every 3 and 4 year old child is allocated a writing book and a drawing book. These books enable children to express themselves through their own creativity/imagination at their own pace. The books provide evidence of children's progress and help us monitor individual development. This forms part of your child's "*learning journey*".
