

80% Extra Virgin Olive Oil Soap

Pure, Lavender, and Lemon

Dry, damaged skin can often show signs of premature aging. Therefore what we put in our bodies and on our skin greatly influences how our skin combats the natural aging process. Olive oil is the only botanical oil that actually mimics the skin's natural oil. This remarkable benefit makes extra virgin olive oil the perfect nutrient rich ingredient for my luxurious body products.

Extra Virgin Olive Oil Lotion

Soft and subtle with a clean finish. Use on face and body.

Extra Virgin Olive Oil

100 ml and 375 ml

Olive Diva extra virgin olive oil is produced from estate grown olive trees planted in Paso Robles, California. The olives are hand picked and cold pressed from five Tuscan olive varieties including Frantoio, Leccino, Maurino, Moraiolo and Pendolino.

Balsamic Vinegar

100 ml and 375 ml

Our balsamic Vinegar is made in small amounts in the traditional Italian style and aged in wood barrels imported from Italy. We use barrels made of woods such as cherry, chestnut, juniper, oak, mulberry and acacia each lending a flavor complexity found in vinegar costing as much as \$200.00 for a 100ml bottle. We imported 6 year old Balsamic vinegar from a farm in Modena Italy and blended it with our own vinegar from Paso Robles that had been ageing in our barrels since 2002. The Italian vinegar is made from the Trebbiano grape, ours is made from our own Viognier, Chardonnay, Roussanne, Grenache Blanc and Sauvignon Blanc juice.
