BUILDING T.E.A.M.S DRUM CIRCLE PLAYSHOP THRU' RHYTHM

Drum Circle Playshop (DCP) is a very unique Teambuilding programme that is ideal for many purposes and occasions. It can be a fullscale 1 Day Teambuilding or just a 3 hours energizer after lunch, as a finale to a very exhausting brain wrecking conference or part of the Annual Dinner programme. Our DCP is ideal for 30 - 500 pax in 1 single session. Never before is there another teambuilding programme that can involve such a large group, where every participant is involved together to achieve a single goal from the start to the end - THE **ORCHESTRA** Level. Imagine your entire team performing like a band in a short duration of 2 hours, even without any musical background. What a transformation! Our DCP is about getting the entire team to achieve something UNIMAGINABLE and MIRACULOUS. That's the secret of the POWER of T.E.A.M.

"Together Everyone Achieves Miracles"

WHAT TO EXPECT ??

- Achieving a common goal together regardless of
- job hierarchy, department, race, religion or creed
- Builds effective teams and empowers community
- Promotes creativity and “can-do” mindset
- Opens minds to new ideas
- Promotes self-confidence by removing fear
- Promotes the concept of “teaching-without- teaching”
- Facilitates communication – listening skills and body language
- Builds trust and confidence
- Inspires community spirit and oneness towards a common goal
- Enhances wellness and health
- Helps reduce stress and release negative energy

**People learn the most by
having fun! When they play
together, they stay together
– A Wise Leader**

LEARNING OBJECTIVES

Metaphorical Lesson:-

There is no shortcut to achieve goals. Need to go through the process of “climbing” Level 1 to Level 4 until orchestra level.

- **Level 1 (Individual Consciousness)** = Emphasise importance of core values, mission and vision of company as foundation to future success, be it company achievement of goals or relationships with colleagues and family members. No Level 1, no orchestra
- **Level 2 (Group Consciousness)** = Sends message that to achieve Orchestra Level, everyone needs to play together as one and not as an individual. This promotes the Teamwork concept very well. All members must start thinking about “WE/US” and not “I/ME”
- **Level 3 (Percussion Ensemble)** = Emphasise importance of diversity within the team, people with minor roles are equally important, just as small shakers and tambourines are also important to add special effects to the orchestra, and not just drums alone.
- **Level 4 (Orchestra)** = After passing Levels 1 – 3, the group will achieve Orchestra Level where there must be music, melody, singing by the group. There is no guarantee that the group will achieve orchestra and this talks about the fact that there is no guarantee of success for the team/company/business.

The only security or insurance for success is when the team works together in unity. Once the group hits orchestra level, the entire negative mindset and “cannot do attitude” will be shattered, because it seemed so impossible for people without any musical background. Very powerful reminder that all things are possible, but we must believe in ourselves and the power of the team.
