TPCOMM	Ex Taylor Plastics Commonwealth Bogie Mouldings	4.50

## NOTES

- \* Complete Kits comprise of plastic body sides to correct profile, plastic roofs and floors, plastic underframe mouldings, plastic bogies, additional white metal castings, cast white metal ends and etched brass sides; as appropriate. Full instructions are included together with practical suggestions for motorising. *To achieve the best possible results, we would suggest that you examine the list of additional accessories available in Part 4.*
- a These are reductions of the etched sides produced in OO scale by COMET COACHES. Production runs are limited therefore please allow up to four weeks for delivery.
- b Only limited stocks of this etch available in approx 15 thou brass
- c At present, only available as a 5 thou etch with no instructions.
- d Etched brass kits only require Peco wagon chassis to complete
- e Etched brass kit only requires Taylor 20'9" chassis to complete
- f Printed on .006" clear plastic sheet and designed to be combined with our standard plastic coach components to form a complete coach. Alternatively, they can be fitted to a Farish Mk1 coach body but this requires a lot of work.
