Corner Rounders

SCR-6

SCR-7

Shark Finishing Machinery introduces to its line of Smart print finishing equipment the SCR-6 & SCR-7 Corner Rounders. The SCR-7 is capable of cornering up to 3" at a time using any of the 7 built in dies that can be selected from its rotary carousel. Standard blade sizes range from 3/32–5/16 and optional 1/2 and 3/8 are also available. The SCR-6 comes standard with 1/4" blade with a variety of optional blades available. These machines are easy to use, compact in size and requires only minimal maintenance. The SCR-6 is constructed of strong metal for a long life. The SCR-7 will give you the same professional results of other more expensive electric corner rounding machines at a small fraction of the price.

SCR-6

- Strong Metal Construction
- Interchangeable knives
- Table Top
- Manual
- Waste Tray
- Alignment guide
