

# ISRAELI NUCLEAR MOON STRIKES

The purpose of this illustration is to show a Lunar Pattern of when Israel attacked 2 prior Muslim Nuclear Reactors. Perhaps it can lend a clue as to when the Strike on Iran's Nuclear Reactors could occur based on this Supposition. Judaism has to be destroyed according to Koran because it is tied to YHWH's Promise of the Land and its Title Deed to be given to the Descendants of Abraham but through Isaac, not Ishmael...through Jacob, not Esau. To have a State of Israel does not give Islam Legitimacy. The mere fact that the Hebrew Nation was reborn on 1948 is a Direct Assault and Affront to the Tenets of Islam. YHWH in 1948 established Israel as it has a Biblical Legal Claim to the Land. In Shi'ite Theology, Israel can not be allowed to exist indefinitely because it would 1) validate the Jewish-Christian Bible. 2) It would mean Israel does have Rights to the Land, (Palestinian Covenant). 3) Islam is not the Religion of Peace. 4) Mohammed is not a 'Prophet' of YHWH nor the Last. There is a lot of speculation if and when Israel will strike Iran's Nuclear Facilities with the intent of stopping the Nuclear Armament of Iran's Army. Israel has already started. Iran has already successfully tests Long Range Missiles capable of reaching Israel, Saudi Arabia and Europe. Up until such time, Clandestine Efforts have nonetheless occurred with sabotage even the internet level with computer viruses, Assassinations and destruction of Facilities. It is not a matter of 'if' but 'When' Israel will Strike at Iran's Nuclear Reactors.

## A NUCLEAR CONFRONTATION IN THE MIDDLE EAST NUCLEAR ARMS RACE

There are 3 possible Strike Zone Dates that fall on a Waning Moon from October to December and Waxing Moon from October to December. The 'Red Line' Policy of Israel was initiated in the Fall 2012 with Plans to Strike Iran. The Plans were postponement till a later Time and Place. Israel struck 2 Muslim Enemy Nuclear Facilities before, having destroyed one in Iraq 1981 and one in Syria in 2007 during specific Moon Phases. Israel struck Enemy Targets in either a 1) Waxing or 2) Waning Moon, as did the Arabs in Yom Kippur War of 1973, to attack Israel. Will this occur in the up-coming Israeli Strike on Iran's Nuclear Reactors?

### SAMSON OPTION

A Term is used to describe Israel's alleged Nuclear Deterrence Strategy of Massive Retaliation with Nuclear Weapons as a 'Last Resort' against Nations that are attacking Israel, to the point of Total Destruction. It is taken from the Book of Judges 13-16 of the Bible. Currently Israel and Iran are in a 'Cold War' Status.

The map shows the Middle East with arrows indicating nuclear strikes: a red arrow to Iraq (1981), a blue arrow to Syria (2007), and a yellow arrow to Iran (2022?). Other nuclear sites marked include the Bid Kaneh Base in Teheran (2011) and the Isfahan Reactor (2011). The Persian Gulf and Strait of Hormuz are also labeled. The Red Sea is shown to the west.
