

FACTSHEET SAMPLE

SUPPOSEDLY GIVEN TO RECIPIENTS

When Taking the Pfizer COVID-19 Shots

by Luis. B. Vega

vegapost@hotmail.com

www.PostScripts.org

The purpose of this report is to go over the Fact Sheets of the Pharmaceuticals that are producing the mRNA shots that have been approved only under the Emergency Use Authorization clause. Realize that the shots are not FDA approved in the USA, yet they are being injected into People without a long-term study of its adverse effects that usually take 6-15 years to finalize. The Fact Sheet has to thus be provided, explaining the 'Facts' about the shot being injected into one's body. However, the Fact Sheet and its information is not being presented nor communicated to all the People that are eagerly lining-up to received what they have been led to believe is a 'vaccination' that will prevent Infection and Transmission against the COVID-19 disease.

This is not true and the reason why the People are not being presented the Fact Sheet, other than it is posted on the Pharmaceutical Company's website to cover their liability is that People would start to see a glimpse of what is really being injected into their bodies. In summary, the COVID-19 shot Fact Sheets states that the shots are 'Experimental' and by taking the shot, one consents to the 'Experiment'. That since the shots are Experimental, the long-term side effects are unknown. It further states that one has the legal right to refuse and not consent to this Experiment and decline the shots. And that if one is damaged by it, it provides information on where one could possibly get any financial compensation. One wonders why they would include this provision of compensation knowing that there could be potential damage?

By definition of the CDC and the WHO, these mRNA shots are not a vaccine. When one is vaccinated in the traditional medical sense is when Infection is stopped, and Transmission is stopped by having the host cells that the virus is feeding on killed. In this case with the mRNA, they are making the entire human body the 'host'. The mRNA technology is by-passing the human Immune System or 'hacking' it to make it actually produce the portion of the virus itself. Thus, as Dr. Vernon Coleman from England warned, 'The most existential threat to Humanity is actually all those that have taken the mRNA shots.' Why? The mRNA shots are only Therapeutic, meaning that they only address the symptoms.

They do not provide the cure nor destroy the SARS CoV-2. And this is stated in their Fact Sheet by law. It states, 'It may prevent the spread of the virus'. And that, 'They do not know what will be the long-term effects'. And that, 'One has the legal right not to consent nor take the shot'. Therefore, it is technically not a vaccine and are but a 'Gene Editing Tool' that is modifying the host DNA. A vaccine must cure Infection and prevent Transmission. The issue or problem?

It is the so-called 'vaccinated' People that are now the most dangerous in truly spreading the subsequent Variants of the disease. They will be like a 'virus factory' that will produce countless strains through 'Shedding' that the mRNA shots are not designed nor 'coded' to neutralize. Meaning? As noted, before and presented by almost every Scientist and Doctor addressing this alarm, people will be dying in masse from the Variants that will be coming for which the mRNA shots will not be effective to deal with in the future. Those that have been taken the mRNA shots have now had their bodies modified. And thus, the human challenge will be an overwhelming lack of possible subsequent shots to address all the Variants that will surely come.

Bill Gates will make sure of that as he publicly looked at Melinda in one of his many interviews in July 2020 and smiled saying, 'We will have to prepare for the next one. That will get attention this time.' Thus, this coming COVID catastrophe will come in a 2-front debacle. 1, it will not be possible logistically to procure, produce and place all the subsequent shots into People for all those Variants to come. Then 2, the body itself will now have become the 'host' and compromised as its Innate and even its Adaptive Immune System will have been compromised. How so? It is because the original COVID-19 mRNA Spike Proteins will have only been designed for the COVID-19. And it suppresses one's Immune System to that point it will not, can launch an adequate defense of all those other Variants to come.

All the current 4 major mRNA approved for Emergency Use Only shots are not designed to address none but the SARS CoV-2 virus for which COVID-19 is the disease it was designed to cause. The design of the mRNA shot was to have the host body make the Spike Protein to do that once any COVID-19 cells were found in the body, etc. What the Fact Sheets are legally required to state is that the mRNA shot is only addressing the symptoms. And this, only the 'Mild to Moderate' ones, not the severe ones. In fact, any statement on the fact sheet that it claims pertaining to the injection cannot be definitive nor verifiable as it is 'Experimental Drug' and the long-term studies are not confirmed yet.

What the mRNA shots are not doing is kill the SARS CoV-2 virus. Let one repeat this. The mRNA shots that are being pushed as 'vaccines' to thereafter make a person 'Immune' is false as it is not designed to kill SARS CoV-2. Knowing basic Biology, to kill a virus, one has to kill the host cells. A virus exists and can spread so long as it has a living host. A virus is only pieces of Genetic Information. It is when it attaches or 'Infects' itself to a Living Host cell that it can replicate itself and take over having penetrated the Cytoplasm and then into the Cell Nucleus. It then can Transmission itself to other cells and then to another host, etc.

Since none of the mRNA shots kill the host cells of the SARS CoV-2, when the Variants come, the entire human body will be considered as the 'host cell' itself that will be killed by the body's own Immune System, sooner or later. Or otherwise, the person 'vaccinated' will need to be constantly injected with the latest 'coded' mRNA shots in hopes the Scientists and Doctors will have identified and targeted the latest Variant strain. To do this for millions will be costly, and not feasible logistically.

Perhaps that is the plan? And thus, the potential scenario of mass deaths, sooner or later of those vaccinated that not only will be dying but producing subsequent generations of the SARS CoV-2 virus themselves. And the only way to kill the SARS CoV-2 is to kill the host. So, to reiterate, in this case the mRNA is making the entire human body the 'host'. One can follow the logic of what comes next and will, medically. Only the strong will be able to survive this Experimentation Phase ingeniously imposed on an unsuspecting, fearful and misinformed Humanity.

FACT SHEET FOR RECIPIENTS AND CAREGIVERS

EMERGENCY USE AUTHORIZATION (EUA) OF

THE PFIZER-BIONTECH COVID-19 VACCINE TO PREVENT CORONAVIRUS DISEASE 2019 (COVID-19) IN INDIVIDUALS 16 YEARS OF AGE AND OLDER

You are being offered the Pfizer-BioNTech COVID-19 Vaccine to prevent Coronavirus Disease 2019 (COVID-19) caused by SARS -CoV-2. This Fact Sheet contains information to help you understand the risks and benefits of the Pfizer-BioNTech COVID-19 Vaccine, which you may receive because there is currently a pandemic of COVID-19.

The Pfizer-BioNTech COVID-19 Vaccine is a vaccine and **may prevent you from getting COVID-19.** There is no U.S. Food and Drug Administration (FDA) approved vaccine to prevent COVID-19.

Read this Fact Sheet for information about the Pfizer-BioNTech COVID-19 Vaccine. Talk to the vaccination provider if you have questions. It is your choice to receive the Pfizer-BioNTech COVID-19 Vaccine.

The Pfizer-BioNTech COVID-19 Vaccine is administered as a 2-dose series, 3 weeks apart, into the muscle.

The Pfizer-BioNTech COVID-19 Vaccine **may not protect everyone.**

This Fact Sheet may have been updated. For the most recent Fact Sheet, please see www.cvdvaccine.com.

WHAT YOU NEED TO KNOW BEFORE YOU GET THIS VACCINE

WHAT IS COVID-19?

COVID-19 disease is caused by a coronavirus called SARS-CoV-2. This type of coronavirus has not been seen before. You can get COVID-19 through contact with another person who has the virus. It is predominantly a respiratory illness that can affect other organs.

People with COVID-19 have had a wide range of symptoms reported, ranging from mild symptoms to severe illness. Symptoms may appear 2 to 14 days after exposure to the virus. Symptoms may include: fever or chills; cough; shortness of breath; fatigue; muscle or body aches; headache; new loss of taste or smell; sore throat; congestion or runny nose; nausea or vomiting; diarrhea.

WHAT IS THE PFIZER-BIONTECH COVID-19 VACCINE?

The Pfizer-BioNTech COVID-19 Vaccine **is an unapproved vaccine** that may prevent COVID-19. There is no FDA-approved vaccine to prevent COVID-19.

The **FDA has authorized the emergency use** of the Pfizer-BioNTech COVID-19 Vaccine to prevent COVID-19 in individuals 16 years of age and older under an Emergency Use Authorization (EUA).

For more information on EUA, see the “**What is an Emergency Use Authorization (EUA)?**” section at the end of this Fact Sheet.

WHAT SHOULD YOU MENTION TO YOUR VACCINATION PROVIDER BEFORE YOU GET THE PFIZER-BIONTECH COVID-19 VACCINE?

Tell the vaccination provider about all of your medical conditions, including if you:

- Have any allergies
- Have a fever
- Have a bleeding disorder or are on a blood thinner
- Are immunocompromised or are on a medicine that affects your Immune System
- Are pregnant or plan to become pregnant
- Are breastfeeding
- Have received another COVID-19 vaccine

WHO SHOULD GET THE PFIZER-BIONTECH COVID-19 VACCINE?

FDA has authorized the emergency use of the Pfizer-BioNTech COVID-19 Vaccine in individuals 16 years of age and older.

WHO SHOULD NOT GET THE PFIZER-BIONTECH COVID-19 VACCINE?

You should not get the Pfizer-BioNTech COVID-19 Vaccine if you:

- *Had a severe allergic reaction after a previous dose of this vaccine.*
- *Had a severe allergic reaction to any ingredient of this vaccine.*

WHAT ARE THE INGREDIENTS IN THE PFIZER-BIONTECH COVID-19 VACCINE?

The Pfizer-BioNTech COVID-19 Vaccine includes the following ingredients: mRNA, lipids ((4-hydroxybutyl)azanediyl)bis(hexane-6,1-diyl)bis(2-hexyldecanoate), 2 [(polyethylene glycol) -2000]-N,N-ditetradecylacetamide, 1,2-Distearoyl-sn-glycero-3-phosphocholine, and cholesterol), potassium chloride, monobasic potassium phosphate, sodium chloride, dibasic sodium phosphate dihydrate, and sucrose.

HOW IS THE PFIZER-BIONTECH COVID-19 VACCINE GIVEN?

The Pfizer-BioNTech COVID-19 Vaccine will be given to you as an injection into the muscle.

The Pfizer-BioNTech COVID-19 Vaccine vaccination series is **2 doses given 3 weeks apart**.

If you receive one dose of the Pfizer-BioNTech COVID-19 Vaccine, you should receive a second dose of this same vaccine 3 weeks later to complete the vaccination series.

HAS THE PFIZER-BIONTECH COVID-19 VACCINE BEEN USED BEFORE?

The Pfizer-BioNTech COVID-19 Vaccine **is an unapproved vaccine**. In clinical trials, approximately 20,000 individuals 16 years of age and older have received at least 1 dose of the Pfizer-BioNTech COVID-19 Vaccine.

WHAT ARE THE BENEFITS OF THE PFIZER-BIONTECH COVID-19 VACCINE?

In an ongoing clinical trial, the Pfizer-BioNTech COVID-19 Vaccine has been shown to prevent COVID-19 following 2 doses given 3 weeks apart. **The duration of protection against COVID-19 is currently unknown.**

WHAT ARE THE RISKS OF THE PFIZER-BIONTECH COVID-19 VACCINE?

Side effects that have been reported with the Pfizer-BioNTech COVID-19 Vaccine include:

- *injection site pain*
- *tiredness*
- *headache*
- *muscle pain*
- *chills*
- *joint pain*
- *fever*
- *injection site swelling*
- *injection site redness*
- *nausea*
- *feeling unwell*
- *swollen lymph nodes (lymphadenopathy)*
- *non-severe allergic reactions such as rash, itching, hives, or swelling of the face*
- *severe allergic reactions*

There is a remote chance that the Pfizer-BioNTech COVID-19 Vaccine could cause a severe allergic reaction. A severe allergic reaction would usually occur within a few minutes to one hour after getting a dose of the Pfizer-BioNTech COVID-19 Vaccine. For this reason, your vaccination provider may ask you to stay at the place where you received your vaccine for monitoring after vaccination. Signs of a severe allergic reaction can include:

- *Difficulty breathing*
- *Swelling of your face and throat*
- *A fast heartbeat*
- *A bad rash all over your body*
- *Dizziness and weakness*

These may not be all the possible side effects of the Pfizer-BioNTech COVID-19 Vaccine. Serious and unexpected side effects may occur. Pfizer-BioNTech COVID-19 Vaccine is still being studied in clinical trials.

WHAT SHOULD I DO ABOUT SIDE EFFECTS?

If you experience a severe allergic reaction, call 9-1-1, or go to the nearest hospital.

Call the vaccination provider or your healthcare provider if you have any side effects that bother you or do not go away.

Report vaccine side effects to FDA/CDC Vaccine Adverse Event Reporting System (VAERS). The VAERS toll-free number is 1-800-822-7967 or report online to <https://vaers.hhs.gov/reportevent.html>. Please include “Pfizer-BioNTech COVID-19 Vaccine EUA” in the first line of box #18 of the report form.

In addition, you can report side effects to Pfizer Inc. at the contact information provided below.

Website	www.pfizersafetyreporting.com
Telephone	1-866-635-8337
Fax	1-800-438-1985

You may also be given an option to enroll in v-safe. V -safe is a new voluntary smartphone -based tool that uses text messaging and web surveys to check in with people who have been vaccinated to identify potential side effects after COVID-19 vaccination.

V-safe asks questions that help CDC monitor the safety of COVID-19 vaccines. V-safe also provides second -dose reminders if needed and live telephone follow-up by CDC if participants report a significant health impact following COVID-19 vaccination. For more information on how to sign up, visit: www.cdc.gov/vsafe.

WHAT IF I DECIDE NOT TO GET THE PFIZER-BIONTECH COVID-19 VACCINE?

It is your choice to receive or not receive the Pfizer-BioNTech COVID-19 Vaccine.

Should you decide not to receive it, it will not change your standard medical care.

ARE OTHER CHOICES AVAILABLE FOR PREVENTING COVID-19 BESIDES PFIZER-BIONTECH COVID-19 VACCINE?

Currently, there is no approved alternative vaccine available for prevention of COVID-19. Other vaccines to prevent COVID-19 may be available under Emergency Use Authorization.

CAN I RECEIVE THE PFIZER-BIONTECH COVID-19 VACCINE WITH OTHER VACCINES?

There is no information on the use of the Pfizer-BioNTech COVID-19 Vaccine with other vaccines.

WHAT IF I AM PREGNANT OR BREASTFEEDING?

If you are pregnant or breastfeeding, discuss your options with your healthcare provider.

WILL THE PFIZER-BIONTECH COVID-19 VACCINE GIVE ME COVID-19?

No. The Pfizer-BioNTech COVID-19 Vaccine does not contain SARS-CoV-2 and cannot give you COVID-19.

KEEP YOUR VACCINATION CARD

When you get your first dose, you will get a vaccination card to show you when to return for your second dose of Pfizer-BioNTech COVID-19 Vaccine. Remember to bring your card when you return.

ADDITIONAL INFORMATION

If you have questions, visit the website or call the telephone number provided below.

To access the most recent Fact Sheets, please scan the QR Code provided below.

Global website

www.cvdvaccine.com

Telephone number

1-877-829-2619 (VAX-CO19)

HOW CAN I LEARN MORE?

Ask the vaccination provider.

Visit CDC at <https://www.cdc.gov/coronavirus/2019-ncov/index.html>.

Visit FDA at <https://www.fda.gov/emergency-preparedness-and-response/mcm-legal-regulatory-and-policy-framework/emergency-use-authorization>.

Contact your local or state public health department.

WHERE WILL MY VACCINATION INFORMATION BE RECORDED?

The vaccination provider may include your vaccination information in your state/local jurisdiction's Immunization Information System (IIS) or other designated system. This will ensure that you receive the same vaccine when you return for the second dose. For more information about IISs visit: <https://www.cdc.gov/vaccines/programs/iis/about.html>.

WHAT IS THE COUNTERMEASURES INJURY COMPENSATION PROGRAM? The Countermeasures Injury Compensation Program (CICP) is a federal program that may help pay for costs of medical care and other specific expenses of certain people who have been seriously injured by certain medicines or vaccines, including this vaccine. Generally, a claim must be submitted to the CICP **within one (1) year** from the date of receiving the vaccine. To learn more about this program, visit or call 1-855-266-2427. www.hrsa.gov/cicp/

WHAT IS AN EMERGENCY USE AUTHORIZATION (EUA)?

The United States FDA has made the Pfizer-BioNTech COVID-19 Vaccine available under an emergency access mechanism called an EUA.

The EUA is supported by a Secretary of Health and Human Services (HHS) declaration that circumstances exist to justify the emergency use of drugs and biological products during the COVID-19 pandemic.

The Pfizer-BioNTech COVID-19 Vaccine **has not undergone the same type of review as an FDA-approved or cleared product.** FDA may issue an EUA when certain criteria are met, which includes that there are no adequate, approved, available alternatives. In addition, the **FDA decision is based on the totality of scientific evidence available showing that the product may be effective to prevent COVID-19** during the COVID-19 pandemic and that the known and potential benefits of the product outweigh the known and potential risks of the product. All of these criteria must be met to allow for the product to be used in the treatment of patients during the COVID-19 pandemic.

The EUA for the Pfizer-BioNTech COVID-19 Vaccine **is in effect for the duration of the COVID-19 EUA declaration justifying emergency use** of these products, unless terminated or revoked (after which the products may no longer be used).
