

MALLA PRESIDENT'S REPORT – 2019

This past twelve months have been very busy for our association with our committees and the executive working very hard to preserve and enhance the enjoyment of our two lakes,

Many thanks to our executive and all committee members for the important contribution they make to our life on Malcolm and Ardoch Lakes.

MALLA has some serious challenges for this coming year. The first is to complete our Eurasian Water Milfoil project. It is possibly the most important contribution we can make to the protection of our lakes' water quality. This project requires much support from the MALLA membership and we will also need some financial support from outside organizations.

A special thanks to those members who have already made a donation to the EWM project.

Our second challenge is to bring at least one new member into the MALLA executive. I will not be standing for re-election at our upcoming AGM. This position needs to be filled to assist with ongoing Association business. Please consider what contribution you can make to your Association.

Glen Fowler
