

Contributions

SkillsUSA Kansas is developed to ensure SkillsUSA teachers are equipped to train and inspire thousands of students to become the best possible members of American's workforce.

Together we can do more to equip these teachers by contributing funds in support of Career Technical Student Organizations that support students in development of skills and leadership needed in the workplace.

Your gift to SkillsUSA Kansas enhances career technical programs, ensuring students have the funds to participate in local, district, State, and national activities within SkillsUSA. Kansas serves more than 3,000 students and more than 200 teachers annually. (100% of our expenses directly benefit SkillsUSA members.)

Donations to SkillsUSA are tax deductible to the extent provided by law.

Send your donations to:
