January is National Hobby Month

If Food Plots are your hobby choice, January is the perfect time to stop by Hohl's Farm Supply! We are your resource and supply specialist. We have all of the tech sheets to help you decide what you want in your plot. Our friendly staff is highly knowledgeable and happy to assist you from start to finish.

Start with an idea of what you want in the Spring. For best results, assess what was in your plot last. What nutrients did those plants consume and give off? Did you have a soil sample done? If you need a soil sample, stop by to pick up a sample bag with collection instructions (*collection process is very important*). Pay for it when you drop your sample(s) off. We can help you identify your nutrient/fertilizer needs and select the proper seeds to be the most beneficial and economical; taking in consideration the amount of work/time you wish to dedicate to your plot(s).

"My buddy got this and his plot is awesome, so I want to plant this too!" In theory, this sounds good, but 1) Did your buddy get a soil sample? 2) What was the last crop grown in that field? 3) Did the last crop give off nutrients to help this plot? 4) Were fertilizers or chemical used? Is your soil type the same as your buddies? 5) The list goes on... Quality results come from good planning and it is our pleasure to serve you!
