2022 EVENT SPONSOR
AND PARTNER OPPORTUNITY

**CHILDREN'S
FOUNDATION**

Providing opportunity and hope for at-risk youth.

WHEN YOU SPONSOR BIG CARDIO, YOU'RE DOING GOOD!

This year in Florida, thousands of teens and young people will be left to grow up on their own and fend for themselves because they're living in group homes and shelters and have no parents or family to guide them. Statistics show that youth in foster care suffer extreme levels of stress, anxiety, and PTSD from the trauma they experienced before and during their time in the system, and as a result, engage in high-risk, self-destructive behaviors. These behaviors include addictions, self-harm, violence, poor eating habits, poor hygiene and so much more. These behaviors when manifested yield an unhealthy, compromised mental and physical state such as malnutrition, obesity, diabetes, high blood pressure, STD's, dissociative disorder, suicidal thoughts, and more. Without basic necessities such as money, transportation, a roof over their heads, or guidance, youth go into survival mode and often engage in theft, crime, illegal drug sales, and prostitution to get by, or engage in gang activity to feel like they have family and belong.

It's tragic because this is preventable. At BiG Children's Foundation, we recognize that for at-risk youth to thrive and succeed, they need love, a solid support system, healing, a productive outlet, guidance, education, skills and resources. We believe that investing in them on the front end while they're in the system will prevent things from spinning out of control and endangering themselves or others when they are emancipated. We are committed to improving their quality of life and reshaping their futures by restoring their health, training them to be self-sufficient, and providing the education, trade skills and professional development they need to succeed.

BiG Children's Foundation would like to invite you to join us in our mission of "Reshaping the Futures of South Florida's At-Risk Youth" by partnering with us at our 15th Annual BiG Cardio Event on Saturday, May 7, 2022. This unique South Florida favorite encompasses a 5K, multiple fitness activities, sports tournaments, booths, entertainment, food and fun. This event has something for everyone.

As a sponsor of the BiG Cardio Event, you'll receive a benefits package customized to meet your corporate needs and objectives, and you'll feel great knowing that your investment will be impacting the community and changing individual lives!

We invite you to read through this material and consider partnering with us to change the current negative trajectory of teens in foster care to one that is positive, healthy, and successful.

BiG Children’s Foundation is a 501 (c) 3 non-profit organization that was founded in March of 2015 and offered mentoring and community service hours to at-risk youth and teens in foster care. After learning of the poor physical/emotional health of the teens, and the gripping statistics of negative outcomes and failure rates of those aging out, BCF’s mission evolved and purposed to restore health, improve quality of life, train, educate, and prepare teens for a successful future. This is done through small group mentoring, and intentional curriculum that includes nutrition, self-care, health and wellness training, culinary arts, performing arts, creative arts, academic education, tutoring, life and professional skills development, leadership development and resource provision.

BCF offers services to local child welfare agencies and shelters to youth age 13 up. Our curriculum-based programs coincide with the Broward County School Schedule and run from September through June, with summer months focusing on summer enrichment camps, and outreach activities.

We aim to triple the number of direct program enrollment in the 2022/2023 season. Our operating budget is \$399,846 and we are financially supported by individual donors, foundations, churches, businesses, corporate giving programs and sponsorships.

BiG Children’s Foundation is committed to reshaping the futures of teens while in foster care, so they have a happy, healthy successful transition into adulthood and beyond.
