

MOVE ON, LITTLE DARLIN'

By John Lipinski

Move on, little darlin', move on, it's time to go
Move on, keep on smilin', you know it hurts, but it doesn't have to show
Move on, little darlin', it's gonna get better, and you'll be the first to know
You gave it all you had, took some good, with the bad
Now it's time to move along, it's time to grow

Move on, little darling, move on, it's time to go
Move on, the sun is shinin', plant that new seed, quite likely, it will grow
Move on, little darling, time for you to change your status quo
There's better things ahead, just remember, you ain't dead
& it's time to move along, it's time to grow

solo

Move on, little darlin', move on, it's time to go
Move on, if it's raining, cuz, I'm told, there's gold behind that rainbow
Move on, little darlin', there's a new life, for you, near Orlando
Just pack up your cares, good time's will meet you there
It's time to move along, it's time to grow

modulate – full step

Move on, little darlin', move on, it's time to go
Move on, it's inspiring, when the light in the tunnel, starts to glow
Move on, little darling, move on, cuz Jesus knows
That you finally saw the light, and no longer have to fight
And it's time to move along, it's time to grow
