Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

This book is effective July 5, 2023, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices in US Dollars. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Energy Distribution

Screens

Frame

FZ110.

Product Information

Description

This steel frame defines space and channels power and data to the user. Frame holds individual tiles on both sides.

Notes

When finished with cladding, Channel structure is 3" thick.

With feet added, Channel frame sits 4" off the floor. Frame can be clad to have an open base or tiles to-the-floor.

24" and 30"-wide frames cannot support access to power.

Power can enter from bottom opening using an internal direct connect-floor (FZ144.), from a receptacle location using an external direct connect (FZ140.), or from the end of Channel using a ceiling power entry (FZ142.), ordered separately.

Frames of unequal height cannot connect to each other.

Order the following products separately:

- Frame-to-frame connection hardware (FZ128.)
- Structural and nonstructural feet (FZ119., or FZ117.)
- To-the-floor or open base tiles (FZ375., or FZ170.)
- Standard or architectural top cap (FZ112., or FZ11A.)
- Standard or architectural finished end (FZ160., or FZ16A.)
- Power harness (FZ150.)
- Power jumper (FZ154.)

For cable capacity information, see Cable Capacity Charts in Omni.

Counterweight

FZ19D.

Product Information
Description
This counterweight attaches to the top of the lower frame rail. It is required for specific applications supported by structural feet. 1 counterweight includes 2 weighted blocks and attachment hardware.
Notes
Each counterweight includes 2 pieces. For more application information, see the Canvas Channel or Canvas Wall planning guide.
Dimensions

Specification Information
Step 1.
FZ19D. \$285

Gallery Panel, Channel Attached FZ113.

Product Information

Description
 This structural panel stands on the floor and attaches to a Channel to provide end-of-run support and privacy. It is 1 1/4" thick and has a laminate surface with thermoplastic edge, laminate surface with a thermoplastic backed plywood edge, or a veneer surface and edge. Leveling glides and attachment hardware included.

Notes

Gallery panels ranging from 24"-78" wide come as a single piece.
 Gallery panels ranging from 84"-120" wide come in 3 pieces.
 Mid-attached gallery panels are 3" wider than nominal dimension.
 Leveling glides provide 2" of leveling adjustment.
 Grain direction is vertical on veneer, wood-grain and directional laminates.
 Wood-grain and directional laminates are not available on 60"-78" wide gallery panels and are not a recommended application when using ZZ open line wood-grain or directional laminates.
 Attachment direction is determined by facing the gallery panel from outside the workstation. Left attachment (L) connects the left side of a gallery panel to the end of a Channel. Right attachment (R) connects the right side of a gallery panel to the end of a Channel. Mid attachment (M) connects the middle of a gallery panel to the end of a Channel.

Non-Structural Foot

FZ117.

Product Information

Description

This individual foot attaches to 1 end of a frame, at the attachment point of 2 adjacent frames within a run, or multiple frames at a 2-, 3-, or 4-way connection. It adjusts up to 2" for leveling. Attachment hardware included.

Notes

For use with open base tiles (FZ170.), specify open base (A) option.

For use with to-the-floor tiles (FZ375.), specify to-the-floor tile (B) option.

For use with 120° connections, specify end of frame (1A) option.

For length of run and proper support information, see planning guide.

Structural Foot

FZ119.

Product Information

Description
This individual structural foot supports 1 end of a frame or the attachment point of 2 adjacent frames, and can support a Channel wall run. It adjusts up to 2" for leveling. Attachment hardware included.

Notes
For use with open base tiles (FZ170.), specify open base (A) option.
For use with to-the-floor tiles (FZ375.), specify to-the-floor tile (B) option.
Structural foot can be located at the end of a run (1), 6" from the end (2), or be shared in a frame-to-frame connection (3).
For length of run and proper support information, see planning guide.

90° Universal ConnectorFZ121.

Canvas Office Landscape® Infrastructure

Product Information

Description
This connector joins 2, 3, or 4 frames of equal height at 90° angles. Attachment hardware and light seal included. Light seal finish is black.

Notes
Order the following products separately:

- 90° connector cover (FZ123.)
- 90° connector cover, architectural (FZ12B.)
- 90° connector top cap (FZ126.)
- 90° connector top cap, architectural (FZ12A.)

When used with open base tiles (FZ170.), specify open base (A) option.

When used with to-the-floor tiles (FZ375.), specify to-the-floor (B) option.

Open Base Tile

FZ170.

Product Information

Description

This tile attaches to 1 side of a frame and has a painted metal or tackable fabric surface. It is available with or without power and data access at the top power location. Tile is UL listed and NFPA classified. Attachment hardware included.

Notes

Specify width of tile to match width of frame (FZ110.).

To access power and data, order power harness (FZ152.) separately.

For tackable fabric tile with cutouts for hardwired junction boxes (meets Chicago electrical code requirements), specify (O), (P), or (Q) cutout location options.

Painted metal tile with cutouts for hardwired junction boxes already meets Chicago electrical code requirements.

Tiles 24" wide and 30" wide do not support power and data access.

Tiles 36"-54" wide support power and data access at left-hand top and right-hand top of tile only.

Tiles 78" wide cover joined 48"- and 30"-wide frame pairs; power and data access is on 48"-wide frame side only.

Tiles 84" wide cover 2 42"-wide frames.

Tiles 96" wide cover 2 48"-wide frames.

When specifying tackable fabric, horizontal (R) option, fabric direction is horizontal (railroaded). Specify all tiles within the workstation to be the same fabric direction.

Fabric-covered tile accepts Customer's Own Material (COM). Yardage is estimated for directional, 54"-wide fabrics.

Height—Yardage

22"—0.60

29"—0.80

For tackable fabric, horizontal option (R):

Width—Yardage

24"—0.80

30"—1.00

36"—1.10

42"—1.30

48"—1.50

54"—1.60

60"—1.80

66"—2.00

72"—2.10

78"—2.30

84"—2.50

96"—2.80

For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in appendices.

CL	cool grey neutral	+\$0
G1	graphite	+\$0
WL	sandstone	+\$0
WN	warm grey neutral	+\$0

To-The-Floor Tiles

FZ375.

Product Information

Description

This tile attaches to 1 side of a frame and has a painted metal or tackable fabric surface. It is available with or without power and data access at the top and/or bottom power locations. Tile is UL listed and NFPA classified. Attachment hardware included.

Notes

Specify width of tile to match width of frame (FZ110.).
 To access power and data, order power harness (FZ152.) separately.
 For tackable fabric tile with cutouts for hardwired junction boxes (meets Chicago electrical code requirements), specify (O), (P), (Q), (S), (T), (U), (V), (W), or (X) cutout location options.
 Painted metal tile with cutouts for hardwired junction boxes already meets Chicago electrical code requirements.

Tiles 24" wide and 30" wide do not support power and data access.
 Tiles 36"-54" wide support power and data access at left-hand top and right-hand top of tile only.

Tiles 78" wide cover joined 48"- and 30"-wide frame pairs; power and data access is on 48"-wide frame side only.

Tiles 84" wide cover 2 42"-wide frames.
 Tiles 96" wide cover 2 48"-wide frames.

When specifying tackable fabric, horizontal (R) option, fabric direction is horizontal (railroaded). Specify all tiles within the workstation to be the same fabric direction.

Fabric-covered tile accepts Customer's Own Material (COM). Yardage is estimated for directional, 54"-wide fabrics.

Height—Yardage

22"—0.70

29"—0.90

For tackable fabric, horizontal option (R):

Width—Yardage

24"—0.80

30"—1.00

36"—1.10

42"—1.30

48"—1.50

54"—1.60

60"—1.80

66"—2.00

72"—2.10

78"—2.30

84"—2.50

96"—2.80

For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in appendices.

Dimensions

For 36",42",48",54" and 78" wide tiles

For 60",66",72",84" and 96" wide tiles

Power Entry, Internal Direct Connect - Floor

FZ144.

Product Information

Description

This power entry connects a building's electrical supply from a wall, floor or column to a powered frame. It enters the frame through one of the rectangular cutouts in the bottom rail of the frame. The power entry plugs into the side of a power harness and includes a cable that can be field cut to the appropriate length. Power entry is UL listed and Canadian UL listed.

Notes

Power entry does not take up a receptacle location when connecting to the frame harness.

Power entry connects directly to the harness (FZ150.) in the top or bottom power location.

Power entry cannot route through a connector.

For an application using to-the-floor tiles (FZ375.), order power entry, external direct connect (FZ140.).

Licensed electrician must wire power entry.

PVC coated liquid tight conduit.

Power Entry, External Direct Connect

FZ140.

Product Information
Description
This power entry connects a building's electrical supply from a wall, floor, or column to a frame's power harness. It plugs directly into a receptacle location to distribute up to 4 20-amp circuits. The power entry is manufactured in a right-hand direction but can be field converted to a left-hand direction. The cable is available in 4 lengths and can be field cut to the appropriate length. Power entry is UL listed and Canadian UL listed.
Notes
Power entry uses 1 receptacle location.
Licensed electrician must wire power entry.
PVC coated liquid tight conduit.

Power Entry, New York - Floor

FZ141.

Product Information

Description

This floor power entry connects a building’s electrical supply from a wall, floor or column to the power harness. It connects to the modular connection location on the end of a power harness, and includes a junction box. Power entry is UL listed and Canadian UL listed.

Notes

Licensed electrician must wire power entry.

Power entry uses 1 modular connection location on each end of adjacent power harnesses (FZ150.).

Power harness (FZ150.) is required. Order separately.

Power Entry - Ceiling

FZ142.

Product Information

Description

This power entry connects a ceiling electrical supply to the end of a frame. It distributes up to 4 20-amp circuits. The power entry comes with a 10'-high pole that can be field cut to the appropriate length, ceiling trim, connecting hardware conduit, and factory supplied electrical harness. Power entry plugs into the end of the harness. Power entry is UL listed and Canadian UL listed.

Notes

When using ceiling power entry on end of run, finished end is not required.

Power entry uses 1 modular connection location on each end of adjacent power harnesses (FZ150.).

Licensed electrician must wire power entry.

Power harness (FZ150.) is required. Order separately.

Power Harness

FZ150.

Product Information

Description

This power harness converts a nonpowered frame to a powered frame at the top and/or base location. 36"-54" wide harnesses have up to 4 20-amp circuits and provide up to 4 receptacle locations on each side of the frame. 60"-96" wide harnesses have up to 4 20-amp circuits and provide up to 8 receptacle locations on each side of the frame. Harness is UL listed and Canadian UL listed.

Notes

Specify width of power harness to match width of channel structure.
 Specify 1 harness to fill a top power location.
 Specify 1 harness to fill a bottom power location.
 To connect harnesses through frames, specify power jumpers (FZ154.) separately.
 36"-54" wide harnesses have up to 4 20-amp circuits and provide up to 2 duplex receptacles on each side of the frame.
 60"-96" wide harnesses have up to 4 20-amp circuits and provide up to 4 duplex receptacles on each side of the frame.
 When using an 84"-wide tile, specify 1 84"-wide harness.
 When using a 96"-wide tile, specify 1 96"-wide harness.

Power Jumper

FZ154.

Product Information

Description

This power jumper connects power horizontally or vertically from 1 power harness to another. It connects power within a frame or between adjacent frames. The power jumper connects into the end of a harness; it does not connect into a receptacle location. Power jumper is UL listed and Canadian UL listed.

Notes

Jumpers are optimized in length to run through 90° and 120° connectors.
Order power harness (FZ150.) separately.

Receptacle, 4-Circuit, 20 amp FZ153.

Product Information

Description

This receptacle snaps into an 8-wire, 4-circuit, shared neutral power harness or a 10-wire, 4-circuit, separate neutral power harness to provide power to equipment with a 20-amp standard plug head or cap. It also accepts 15-amp standard plug heads or caps. Package contains 1 receptacle. Receptacle is UL listed.

Notes

Avoid overloading circuit by ensuring total connected load does not exceed 16 amps. If 1 piece of equipment requires all available power, do not use receptacle's second outlet or install additional receptacles on that circuit. In many cases, equipment requiring this receptacle will use all available power.

Product Information

Description

This tackable screen attaches to the top of a 22"-high or 29"-high Channel frame to extend the overall height and provide boundary. Bayonets extend through the top cap for attachment, allowing the screen to sit cleanly on the top cap. Frame top cap and attachment hardware included.

Notes

Specify width of screen to match the width of frame.
Screen comes with metal alignment piece that attaches into the top of 2 screens to align them along a run.
Screen accepts Customer's Own Material (COM). Yardage is estimated for directional, 54"-wide fabrics.
For vertical fabric direction (T) with 22"-high frame (22):
Height—Yardage
20"—1.58
24"—1.83
31"—2.27
35"—2.58
For vertical fabric direction (T) with 29"-high frame (29):

Product Information

Description

This tackable screen attaches to the top of a 22"-high or 29"-high Channel frame to extend the overall height and provide boundary. Bayonets extend through the top cap for attachment, allowing the screen to sit cleanly on the top cap. Frame top cap and attachment hardware included.

Notes

Specify width of screen to match the width of frame.

Screen accepts Customer's Own Material (COM). Yardage is estimated for directional, 54"-wide fabrics.

For vertical fabric direction (T) with 22"-high frame (22):

Height—Yardage

20"—1.58

24"—1.83

31"—2.27

35"—2.58

For vertical fabric direction (T) with 29"-high frame (29):

Height—Yardage

13"—1.17

17"—1.42

24"—1.83

28"—2.14

For horizontal fabric direction (R):

Width—Yardage

24"—1.89

30"—2.27

36"—2.65

42"—3.02

48"—3.40

54"—3.78

60"—4.16

66"—4.54

72"—4.91

For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in appendices.

Glass Screen, Frame Top

FZ114.

Product Information

Description

This glass screen attaches to the top of a frame to increase the overall height. It has concealed attachment brackets that eliminate the gap between the top of the frame and bottom of the screen. Frame top cap and attachment hardware included.

Notes

Specify width of screen to match the width of 1 frame, or the combined width of 2 frames.
18"- to 48"-wide frame top screens can only span 1 frame. 54"-wide and wider screens can span 2 frames.

Dimensions

Specification Information

**Product Information****Description**

This laminate screen attaches to the top of the 22"-high or 29"-high Channel frame to extend the overall height and to provide boundary. Bayonets extend through the top cap for attachment, which allows the screen to sit cleanly on the top cap. Frame top cap and attachment hardware included.

Notes

Specify width of screen to match width of frame.
24"-72" wide screens must match width of Channel frame.

20-Day or Less/Assigned Lead-Time Order Information

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon  will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an  are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Meridian®

Filing and Storage: (616) 846 9236.

Order Entry fax number for all other products:

(616) 654 3085.

For more information, contact your Customer Care representative at: (866) 854 3048 ext 3400.

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Per Herman Miller Terms and Conditions.

Stain-to-Match Program

Stain-to-Match Program

Program Overview

The Stain-to-Match program gives you the option of using veneer finishes that are not listed in the standard offering. The program allows Herman Miller to match a customer's existing recut or natural veneer, or create a new finish that is unique to an installation.

Specific information on approval, ordering, pricing, and warranty for the Stain-to-Match program is listed below. Questions and requests for assistance may be directed to Herman Miller Options at: (800) 654 3910

Stain-to-Match Process

1. Fill out the Options Stain-to-Match Request Form and send along with a color sample (2" x 3" minimum) to the Herman Miller Options Applications Team at the address provided on the form. The form can be found on Omni.
2. Within 7-10 working days, Herman Miller Options will send a sample of the color-matched stain on Herman Miller veneer to the requester for the customer's signed approval.
3. If the sample meets the customer's approval, sign the reverse side of the sample, scan and email the approval to: options@hermanmiller.com.
4. After the stain has been approved, a formal quotation with special number and pricing can be provided, or the product can be specified through the Vary Easy program, if available. Work with the Options team on final product needs and how to specify.
5. A purchase order can then be placed.

Stain-to-Match Warranty

Herman Miller warrants its products to be free from defects in craftsmanship from the date of delivery for the applicable warranty period. Herman Miller is responsible for the physical properties of the veneers available through the Stain-to-Match program, which include:

- STA: Stain-to-Match on Recut Ash
- STC: Stain-to-Match on Cherry
- STD: Stain-to-Match on Oak
- STK: Stain-to-Match on Reltech Anigre (Geiger)
- STP: Stain-to-Match on Maple
- STU: Stain-to-Match on Walnut (Geiger)

See your specification tool for product specific finish offering limitations.

Customer's Own Material Order Information — Workspaces

Customer's Own Material

Program Overview

The Customer's Own Material (COM) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM textiles only. COM textiles are on assigned lead times.

Omni lists an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM is listed below. Questions about the COM program and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 ext 6543400

Customer's Own Material Warranty

Herman Miller does not warrant COM textiles. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics.

Ordering and payment for COM textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from Maharam, Camira, C.F. Stinson, Guilford of Maine, Luna Textiles, Momentum Textiles and Ultrafabrics to simplify ordering and shipment. For this service, refer to the Supplier Connection program in Omni.

Application Note

Herman Miller does not guarantee that Customer's Own Material (COM) fabric patterns will align across panels/tiles or from one screen to the next. We also do not guarantee that COM fabric designs will be positioned consistently in the same location across several panels, tiles, or screens.

Textile Approval

1. Select a COM textile and a Herman Miller product.
2. If your textile does not show as tested in Omni, submit a request. You will be required to select a specific color of the textile and feature of the product to test, i.e., seat, back, etc.
3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with COM

1. Refer to the specific products to determine the yardage required for COM textiles.
Note: Yardage requirements are based on nondirectional, 54"-wide textiles. 66"-wide textiles are needed for application on 60"-wide products. Additional yardage may be needed due to the unique characteristics of a textile.
2. Obtain the COM ID# in Omni. If the color you are ordering does not have a COM ID# assigned, click "Create ID".
3. Enter your order on Order Manager in Omni.
4. Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the Herman Miller products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 ext 6543400.
Products will be scheduled for production when COM textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from Maharam, Camira, C.F. Stinson, Guilford of Maine, Luna Textiles, Momentum Textiles and Ultrafabrics. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:
(616) 654 3400
(866) 854 3048 ext 6543400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at a total product cost based on the supplier’s price published at the time of the order.

Textile Approval

1. Select a COM textile and a Herman Miller product.
2. If your textile does not show as tested in Omni, submit a request. You will be required to select a specific color of the textile and feature of the product to test, i.e., seat, back, etc.
3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with Supplier Connection COM

1. Identify and include the following information on your purchase order:
 - Product number and option
 - Herman Miller’s COM identification number
2. Enter your order on Order Manager in Omni.
3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.

Textiles Application
Chart — Workspaces *continued*

continued

- *Available*

A *Assigned lead-time textile.*

A *Maharam textiles are on assigned lead times.*

See page 2 for exception notes.

[illegible]

Application Note: Herman Miller cannot guarantee material/pattern alignment in adjacent products. For example, a fabric's pattern may not align from one screen to the next, or from one panel to the next.

* Available in select colors on 20-day lead-time. Refer to “Maharam Colors - Workspaces” for 20-day colors.

- 1 Refer to price book appendices and Omni for COM information.
2 Available on all products except 54" and 60" wide.
3 Not available on AO partial-glazed panels.
4 Not available on Action Office (AO®) acoustical panels.
5 (8R_), (8T_), (85_), and (5S_) not available on AO acoustical panels and not available on 54"- or 60"-wide products.
6 Not available on Action Office (AO®) connectors, cable management, and spacers.
7 Not available on AO acoustical panels; not available on AO2 cable management panel face.
8 Available in select colors. See the "Proprietary Textile Colors — Workspaces" appendix.
12 Not available on Ethospace tackable tiles.
16 Not available on Canvas E-style storage.
18 Available on seating products in select colors. See the "Proprietary Textile Colors — Seating" appendix.
20 Not available on Canvas E-style storage or 60"-wide B-style storage.
21 Not available on Ethospace connectors and cable management tiles.
22 Not available as railroaded application option for Chain (2V00) on Canvas Extended Width Tiles.

Distribution Rights

Working together since 1956, Herman Miller and Vitra are the authentic sources of designs by Charles and Ray Eames, Alexander Girard, and George Nelson. All the designs shown in this book are protected by law. Herman Miller has obtained all rights to make and sell these designs. Also, Herman Miller holds exclusive worldwide manufacturing and distribution rights for these products with the following exceptions:

Charles and Ray Eames, George Nelson, and Alexander Girard—Worldwide distribution rights for furniture in all areas except Europe and the Middle East. For those areas, please contact Vitra.

Isamu Noguchi—Worldwide distribution rights for the Noguchi Rudder Table. Distribution rights for the Noguchi Table in North America and Central America only. For all other areas, please contact Vitra.

Magis—Exclusive distribution rights in the US and Canada. For all other areas, please contact Magis.
