

Construction in Bell Canyon

Want to repair or build: a house, a guest house, fencing, a driveway, a pool, landscape, hardscape, a deck, a balcony, a porch, a garage, retaining walls, a sport court, solar panels, or anything else not inside your home?

Want to replace your roof, windows, doors, shutters, exterior lighting, paint, pavement, concrete, patio, or anything else that is outside your home?

Great! To make things as easy as possible, **before** you begin, obtain BCA Architectural Committee approval. For simple projects, the process is quick and easy. For large, extensive projects, there are more requirements and time needed. Don't forget this important step so that you aren't slowed down when you're ready to go.

Check bellcanyon.com or contact Lulu, the Architectural Committee Coordinator, in the BCA office, 818-346-9879, lulu@bellcanyon.com, for everything you need to know before starting your project.
