

  
AMERICA'S FIRST NAME IN BOWS AND ARROWS SINCE 1912

**PERSIAN**  
**\$74.95**

**TOURNAMENT BOW**

Here's the bow that commands the respect of the national as well as the international tournament archer. The PERSIAN'S fine styling, greater balance and stability makes it a masterpiece of bowyers skill, incorporating design features which reduce vibration, and increases performance.

Integral stabilized design assures effortless draw and negligible recoil shot after shot.

The centershot handle of exotic imported wood is hand rubbed to a beautiful satin smooth finish. This tournament bow deserves a discriminating Archer.

**MOGUL 2**  
**\$64.95**

**SEASONED BOWHUNTER**

A bow is only as good as the man who uses it . . . and for what. The MOGUL II is an exceptionally beautiful designed bow; in the hands of an experienced bow hunter . . . a formidable weapon. Sight your quarry . . . draw . . . aim and silently release your arrow. Because of its styling characteristics MOGUL II releases the arrow smoother and quieter. Camouflaged bow front design assists in making detection of the archer's position more difficult. This superb custom-quality composite bow is made to withstand the rigors of hunting trips year after year.

Draw weights ..... 35-55 pounds  
Draw limit ..... 28 inches  
Bow length ..... 54 inches

**MOGUL 1**  
**\$49.95**

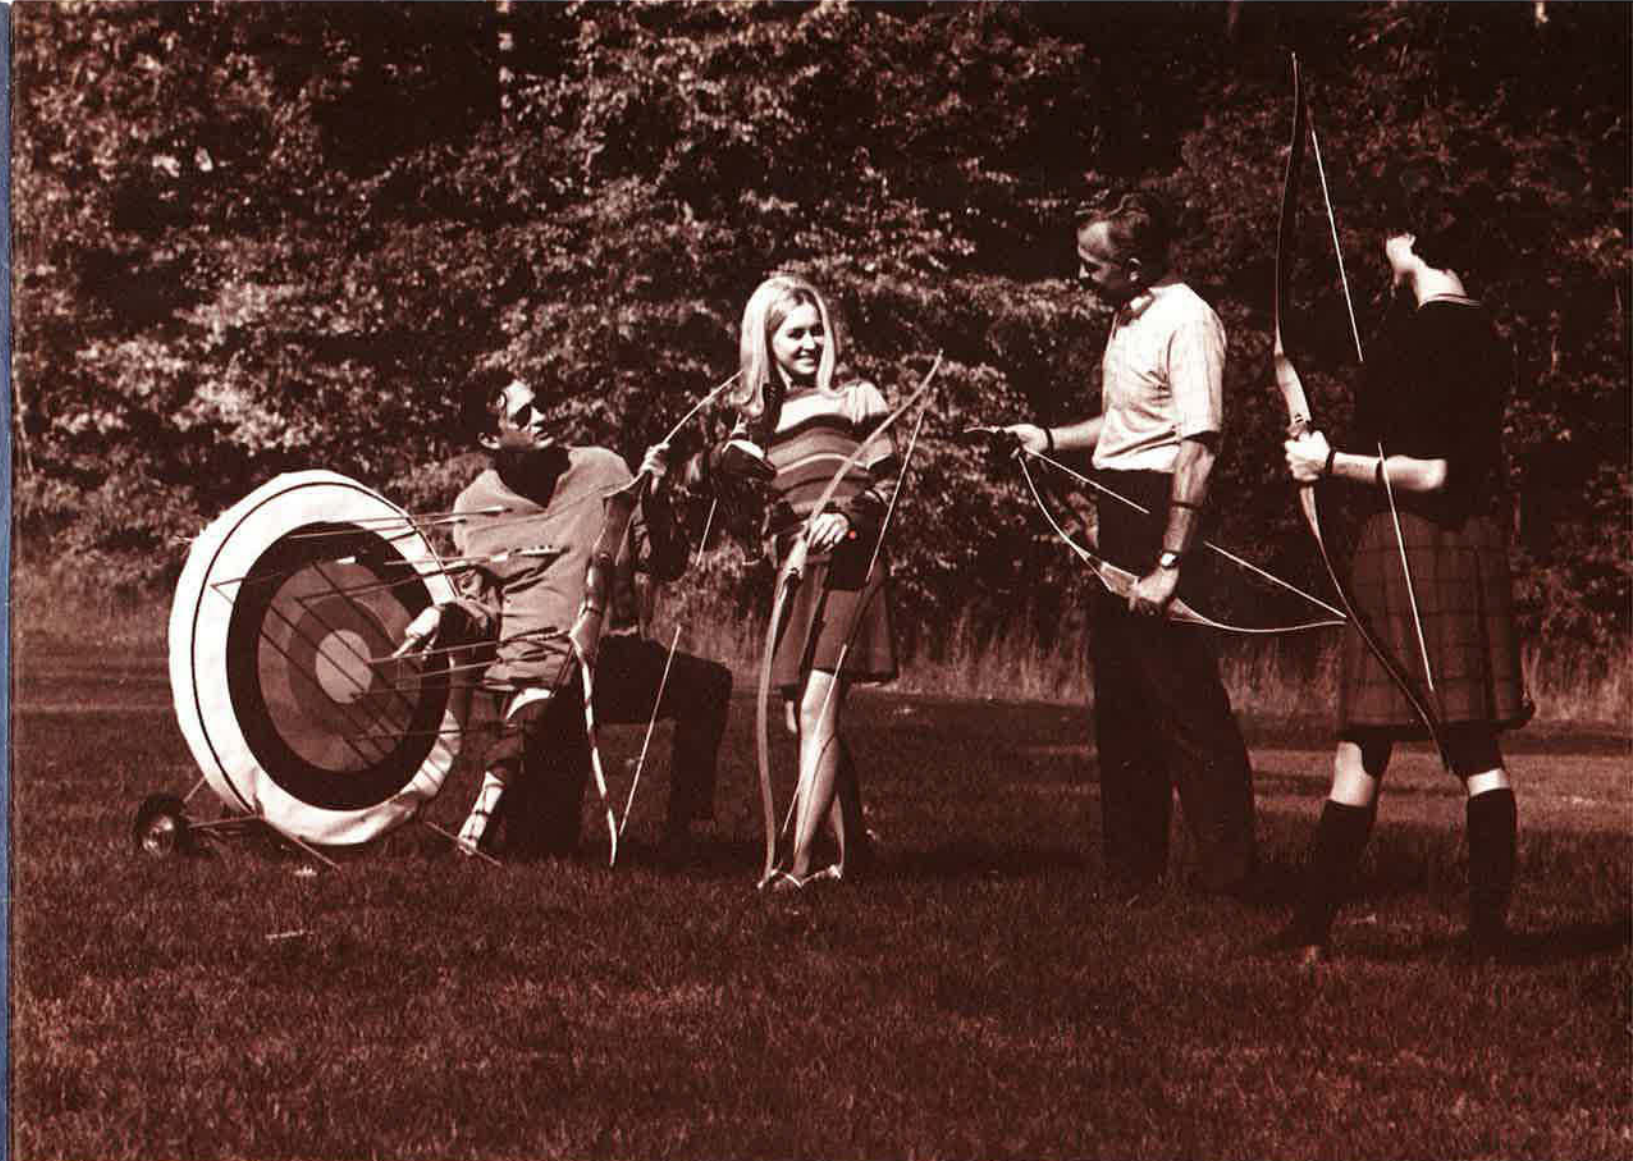

**MULTI-PURPOSE BOW**

The MOGUL I is for the archer who enjoys the competitiveness of target shooting as well as the challenge and excitement of hunting. For the transitional archer, the MOGUL I combines the essential bow features of the hunting bow and the tournament bow. Here again, as with all Stemmler bows, the MOGUL I fits the archers hand like a glove. The expertly contoured handle section provides a comfortable, natural feel. The full working recurve will surprise you with its easy, steady draw and powerful cast. The MOGUL I, wherever used, provides specialized custom-craftsmanship features at a moderate price.

Draw weights ..... 30-55 pounds  
Draw limit ..... 28 inches  
Bow length ..... 64 inches

**TURK**  
**\$39.95**

**BOW FOR FIELD OR FOREST**

Show me a bow hunter who will not compromise the requirements of a rugged reliable top-notch hunting bow . . . and he ultimately winds-up owning the TURK. Born of specially selected stock the beautifully wood grained Turk enjoys the custom quality bow features of laminated-glass powered limbs and a semi-working recurve design. A remarkable hunting weapon with the potential of bringing down anything that inhabits the forest, roams the plains or traverses the mountains. This unusually fine medium priced hunting bow will perform with a superior cast and lightness, required by both bow hunters and target shooters.

Draw weight ..... 30-50 pounds  
 Draw length ..... 28 inches  
 Bow length ..... 60 inches

**SABER**  
**\$44.95**

**POWERFUL, ACCURATE, TOUGH**

New double stabilized design offers a high degree of stability and accuracy. Fast cast, combined with rugged dependability place this bow high on the list for field or range shooters. The perfect bow for the occasional archer who demands the fine custom designed features, until now, only to be found in the more expensive bows.

The SABER is a beautifully finished bow. Its unusually fine wood grain and styling make it an enviable possession.

Draw weight ..... 30-50 pounds  
 Draw length ..... 28 inches  
 Bow length ..... 60 inches

**TARTAR**  
**\$25.95**

**SMART TARGET BOW**

Too frequently the beginning archer becomes disenchanted with the fun and excitement of archery due to low cost, unpredictable equipment. The TARTAR is designed to provide the would-be-archer with a good bow, one that will fulfill the archery requirements of the beginner yet posses many of the custom crafted features he will demand as he attains greater proficiency.

The TARTAR is a budget priced composite bow of exotic hardwood beauty in the hand grip section. The pistol grip center is handsomely hand crafted, polished and flawlessly finished. Its powerful cast and durability will more than please any aspiring archer.

Draw weight ..... 25-40 pounds pull

### HOW TO SELECT YOUR STEMMLER EQUIPMENT:

Outfitting a beginner or tested archer with the correct equipment is very important. To enjoy the sport of archery, one must feel progress in his proficiency. The proper selection of equipment will greatly enhance this experience of progress.

Shooting a bow and arrow is not a sport of strength, but of precise skill. Selecting a bow you can easily draw and hold before release, will allow you time for concentration on aiming and correct shooting technique. Most men choose a bow between 35 and 45 pounds, and women between 20 and 30 pounds. Ten pounds should be added to these weights for hunting bows. Children under 12 should select bows between 15 and 20 pounds. Be sure the bow is braced or strung properly. STEMMLER BOWS carry these instructions.

In selecting arrows, there are many grades to choose. Within each grade the proper length arrow for each individual must be selected. This selection can best be made at your STEMMLER dealer's or with a bow of a friend. Most men choose 28" long arrows, and women choose 24" to 26" arrows. Without a bow and arrow, the proper length can be determined by the yardstick method. Place a yardstick against the center of your chest. Extend both arms and hands along the horizontal yardstick. The reading at the finger tips will give the proper arrow or draw length.

The selection of accessories, such as armguards, shooting gloves, and quivers depends upon the experience or type shooting, target, field, or hunting that may interest the archer.
