Dub Taylor is Director of the State Energy Conservation Office (SECO), operated by the Texas Comptroller of Public Accounts. Under his direction, SECO helps the state make the most of domestically produced energy, reduce state and local government utility costs and promote cost-effective clean energy technologies. SECO's mission is to maximize energy efficiency while protecting the environment. Prior to joining SECO in 1999, Taylor's public sector experience includes six years with the Texas Railroad Commission's Alternative Fuels Research and Education Division. Taylor's private sector experience focused in commercial real estate, property appraisal and property tax consulting. A graduate of the University of Texas at Austin, he holds certifications from a number of professional development programs

He currently serves on, and is actively involved in a number of energy efficiency and clean energy-focused national, state and local organizations:

- U.S. Department of Energy, State Energy Advisory Board – *Chairman*
- National Association of State Energy Officials – *Treasurer; Past Chairman*
- Texas Energy Managers Association
- Texas Clean Air Working Group
- Austin-San Antonio Chapter of the Association of Energy Engineers
- Austin Independent School District, Environmental Stewardship Advisory Committee

The Texas State Energy Conservation Office

The Texas State Energy Conservation Office (SECO) partners with Texas local governments, county governments, public K-12 schools, public institutions of higher education and state agencies, to reduce utility costs and maximize efficiency. SECO also adopts energy codes for single-family residential, commercial, and state-funded buildings.
