Dear Parents and Carers,

I hope that you and your families are all safe and well.

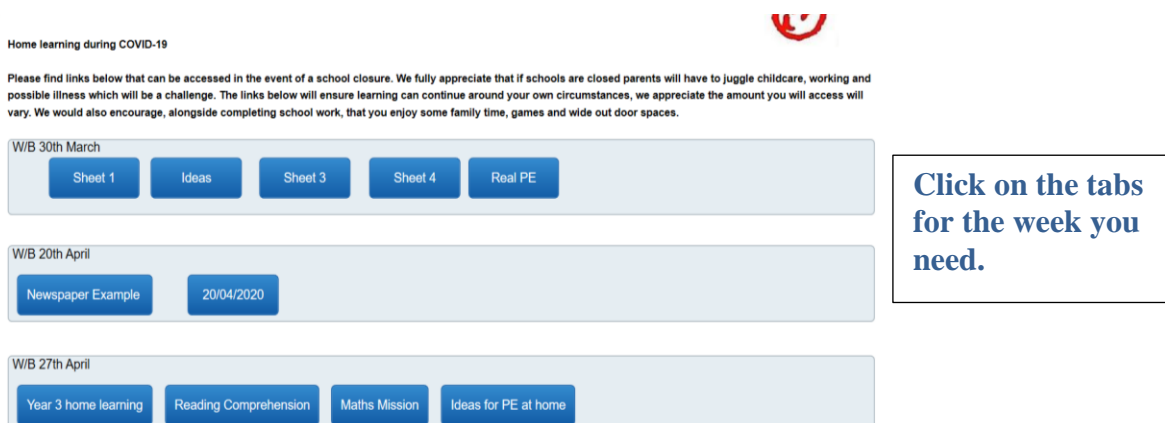

We are now at the end of our 6th week of home learning. As a school, we want to say thank you to everyone who has tweeted photos of learning, or emailed their child's teacher to show what work you have been doing at home. We love receiving your emails.

Each Monday, teachers will put each year group's planning for the week ahead on the school website. The activities and learning will recap learnt skills in a variety of ways. Our aim is to make learning interactive, practical, engaging and fun! There is no expectation as to how much of this work you should do, as each family's circumstances are different. The teachers have suggested activities you could complete each day in the grid on the planning page.

The school website address is: <https://www.hoppinghillprimary.co.uk/>

Choose the year group your child is in, or working from, and then select the learning for that week.
