

### B2401 SERIES SAFE DEPOSIT LOCKS

B

B2401 LH

B2401 RH

- A direct replacement for the Corbin #2401, S&G #261, #263, #4210 and MGM ASP series of locks
- Easily match any existing prep key to work in B2401 locks
- Requires insertion and rotation of the Prep Guard Key prior to the insertion and rotation of the renter or customer's key in order to retract locking bolt
- The B2401 Group Locks have a brass finish and come in right or left handed
- Intended primarily for service use in Canada's major financial institutions
