Gorman-Phillips Construction has been in the pipeline business since 1962. H.V Gorman founded the company after traveling all over the southern United States building oil & gas pipeline systems beginning in the mid 1930's. After serving in the army in Vietnam, H.V's son Kenneth Gorman joined his dad and began working for Gorman-Phillips. He took over operations of the company in 1974 and continued through the oil boom of the late 70's & early 80's.

Beginning in 1978, Kenneth's son Todd Gorman began working for the company at the age of 15 and in 1983 became full time. After Kenneth's death in 1992, Todd took over operations of Gorman-Phillips until the present time 2021.
