

Remote Monthly Maintenance Plans

Can your business afford downtime?
If you're experiencing sluggish computers,
slow network performance, freezing or
unresponsive programs, suspicious
behaviour, possible virus infection, or
need to upgrade but not sure how to
proceed, inquire about our monthly
maintenance plans and avoid all of the
above, before it ever even happens.
Now that's service!

905-639-9198 / sales@burloak.com

Burl-Oak offers a number of flexible solutions to keep your systems running as trouble free and secure as possible. We can customize a low-cost maintenance plan tailored to your needs. These can be monthly, bi-monthly, or whichever interval best suits your business needs. Also, service can be carried out remotely or on-site. Remote maintenance has the advantage of being non-disruptive to staff as it can be done during non-business hours.

We'll monitor and maintain the condition of the PC & you'll have peace of mind. Call or email for pricing and further details.
