Accidents can happen in an instant affecting you or a loved one. Choosing a Medical Plan

Deductible

The amount of healthcare cost you will have to pay before the plan starts paying.

Coinsurance

After the deductible is met, you and the plan share in the cost of services.

(Example: if the plan pays 80% you will pay 20%)

A set amount defined by the plan that you will pay when you receive care.

(Example: You pay a set dollar amount when you visit your doctor)

Out of Pocket Maximum

Protects you from large medical bills once your out of pocket reaches this amount. The plan will pay 100% once eligible expenses exceed that amount.

In and Out of Network

In Network services will always be the lowest cost option. Check your plan for non network coverage. It may be less coverage or no coverage except in an emergency.

Balance Billing

In-network providers are not allowed to bill more than the plan allows, out of network providers can charge the excess of the plan allowance to "balance" the charges.

TIPS: Check the Network to ensure your doctor or hospital is covered.

Consider premium cost, deductibles and copays that may affect your true out of pocket.
