WASHINGTON HALF MARATHON 2022 Impact Report

2022 Season Overview

After 1,183 days TWV Washington was finally able to return to Rock 'n Roll, in the streets of Bellevue this time, on mission together to bring clean water to people around the world. This team has consistently met the moment, continuing to live into the calling to go farther together to bring life in all its fullness to people both here and around the world. Through two 7Day6Ks and many postponements of our race, we finally had our time to celebrate! This team served as an orange beacon of hope in the streets of Bellevue on September 4th as we took our victory lap throughout the city—celebrating all the lives that have been transformed this season! THANK YOU from the bottom of our hearts for this opportunity to be a part of life-changing ministry alongside your church.

—Kaaren Hatlen and Jodi McDaniel
