

Title *Live!*
 From the Library
 It's Friday Morning

Suitable for fourth grade students to perform.

Audience to be first and second graders.

To be performed during April which is Library Month.
April also contains Library Week.

This 45 pages include the script for the director and scripts for the eight parts to be played. Print out the student's parts twice so that understudies have their own copies.

To give more children in your class a chance to participate, you could arrange for more than one performance and have the understudies play the parts and the first performers be their understudies. The children who do not have acting parts can be assigned jobs creating the stage props.
