

## Rules for Team Low Net

All Players must have a handicap. If a player does not have a handicap he has to play to a zero. In other words no strokes are allowed. Players must fill out their score cards with first initial and last name. Enter all the player names and handicaps on the score cards, and which colour tees you are going to play. The handicaps are available on our website and at the pro desk. All players enter their gross score for every hole and at the end of the round, total your score and subtract your handicap. Then add up your teams total net score and turn in your score card in the usual way.

If you are a threesome, add up your combined handicaps and divide by 3. This will be the Phantoms handicap. Each player takes turns playing two balls, but you must rotate your playing order so as not to play consecutive holes.
