_____	Influenza	_____	_____	
_____	Parainfluenza	_____	_____	
_____	Heartworm Check	_____	_____	

Flea, Tick and Heartworm Preventative _____

List all medications this pet is currently taking. _____

All Vaccinations listed above and a year-round Flea, Tick and Heartworm preventative are a requirement to participate in Wright Pet Kennels Lodging and Daycare Programs.

* Bordetella Intranasal must be given twice (2) a year to be efficiently protected.
 *+ Bordetella Injectable is recommended to be given twice (2) a year to be protected because efficacy is lower than the intranasal vaccine.
 Some of these vaccinations may or may not be included in 1 shot and may or may not be an annual or a 3-year dose; these are dependent on each individual veterinarian.
