About the Learning Process

Results * Connection *** Support *** Research-based**

When communication is easy, you are successfully using your preferred style of communication. You comfortably express yourself and process information.

What about those interactions *when you are frustrated, confused and even angry?*

The focus of the workshop and the ***Working It!*** application follow-up session is designed for you to learn how to adjust, when necessary, your preferred style to match others. Each style has strengths, challenges, tendencies, goals, desired environments, motivational needs, fears, etc. This information will be at your fingertips!

Now the communication channel is even more open. Apply strategies based on an easy-to-learn, data-based system.

Interactive Workshop, 4 hours, provides the opportunity to share experiences and increase your strategy tool options.

***Working It!* Application follow-up Session**, 90 minutes, provides the safe environment to give and receive feedback about personal communication situations experienced in the past 2 weeks. How did you apply the 4R's (*Reflect, Retool, Respond, Review*)?
