

Dear Valued Customers,

As news surrounding COVID-19 continues to unfold, we are committed to supporting this great community by providing you, our valued customers with everyday products at affordable prices.

Our entire team is now focusing all efforts on cleaning and sanitizing with regularity, stocking shelves as often as possible and working directly with suppliers to address heightened demand.

Due to the unprecedented demand for food and non-food products by the grocery industry, we are experiencing drastic shortages on many key items.

Due to this fact, you may not see a print ad coming from our store for a limited period of time.

That being said, this does not mean we are arbitrarily raising prices or taking advantage of this situation in any way. This means simply, we cannot advertise with the uncertainty of adequate stock.

Any special allowances we are receiving will continue to reflect on the shelf for items in stock.

As a courtesy to fellow patrons, we're asking our customers to limit the number of high demand items purchased. This will help us keep shelves stocked, prioritizing access for all shoppers.

Our goal is to serve this entire community and provide for your needs to the best of our capability. Thank you for your continued support. We are here for you, our entire team is committed to your food safety and availability.
