

Geometric Links Class Description

Project Description:

Exploring the use of unique and surprising jigs will get your creative juices going. These jigs will be used to form wire into stylish links of gleaming chain. This is a great class to expand skills with wire in the creation of an eye catching necklace and earrings.

- chain nose pliers
- diagonal wire cutters
- measuring tape or ruler
- nylon jawed wire straightener

Time required for class: 2 - 3 hours

Students will complete a couple links of each type in class.

Short Description:

Exploring the use of unique and surprising jigs will get your creative juices going. These jigs will be used to form wire into stylish links of gleaming chain.

Skill level required: All skill levels and ages welcome!
No experience necessary, prior wirework is helpful.
