Terrain

The terrain we encounter on this trip is moderately rolling with some steeper sections. Our bike routes follow a combination of paved and dirt roads, some more rocky and rough than others. Please remember that you will be on mountain bikes and the riding conditions can change with the weather—in dry years the terrain can be dusty, whereas rainy conditions lead to muddy trails. The hiking routes will vary between smooth dirt hiking trails to more uneven rocky paths that may have some tree roots or uneven stairs.
