

PFIZER FETAL TISSUE

FAÇADE EXPOSED BY PROJECT VERITAS

Whistleblower Exposes Fetal Tissue in COVID-19 Shots

by Luis B. Vega
vegapost@hotmail.com
www.PostScripts.org

'I am not upset that you lied to me, I am upset that from now on, I cannot believe you.'
-Friedrich Nietzsche

The purpose of this report is to provide an important transcript of an interview done by Project Veritas. It dealt with a Pfizer Employee, who became a Whistleblower. The Employee provided Eye-Witness Accounts and Photographic Proof that indeed, as many had accepted from the very beginning, that Aborted Fetal Cells are not only used for the Development of the Vaccines but are presently being used to Mass Manufacture them. They, Pfizer has lied in that they have said they 'only' used them for 'Development' and are not in the Shots. According to this brave Whistleblower, Aborted Fetal Tissue is in the COVID-19 shots being injected into People. She came forward because the Powers-That-Be are going after the Children now. Many will argue that Fetal Tissue has been used to develop numerous types of 'Vaccines'.

First of all, this is a Straw Man Argument in that the 'Ends do not justify the Means'. A Dead Baby is a Dead Baby. What is telling and why this revelation is important is that Pfizer lied. Period. And if that is the case, the lies are deep and wide, enough so that the whole COVID Façade risks being entirely exposed then. They will not let that happen. The COVID Psychosis is working well as Billions now have been injected with their Poison Death Shot as Dr. Zelenko calls them. And that is what they are. They have 'Death' inside the and they cause Death. It is no surprise that Mega Pharmaceutical Companies like Pfizer has been found to have lied before. Several of their Medical Products had been found to be dangerous and had covered-up the Adverse Effects it was causing in People, to the point of Death.

In their argument, it was 'cheaper' to pay-out Indemnification than to totally recall any defected Medical Product. This exposure by Project Veritas is championing the cause of Freedom and Truth. Yet their Founder has had his house searched by the FBI in an attempt to intimidate him to stop exposing the Façade and Lies of such Mega Pharmaceutical Companies that are lying about what they have put into their Injections that are causing Death en masse. So, what is the 'Big Deal' of having Fetal Cells in the Injections? For one, they should not be there. There are other ways, which the marvels of Medical Advancement that Fetal Cell Lines are not needed now. Why on Earth would someone object to someone religiously objecting to such Aborted Tissue, that is a Sin and Murder to benefit from? And to be injected into them and now their Children? The main problem here going on is that no matter how one feels Personally or Religiously about the Ingredients, at the end of the day, Pfizer has been withholding information.

Informed Consent

Pfizer is lying about what exactly they are injecting you with. That is Unethical and is making it impossible for People to make Informed Decisions. And they are giving it to People who are deceptively being made to go against their Religions and Ethics without knowing. But this is precisely why Pfizer and the others, are conspiring about it. If the People knew the Truth, they would be out of business fast. Yes, HEK293 and other Aborted Cell Lines are pretty standard for Cell Culture and Experimentation and is used across every major Universities across the country. Many Medical Graduate Students will personally culture them in a Bio-Engineering Lab Course.

The point is that the deception runs deep and wide in how Pfizer keeps what is in the Ingredients, a secret. Why? It is because it is also not just a matter of having Aborted Cell Lines as Ingredients. It would also expose what other Substances are being incorporated in their Poison Death Shot. And as they control the Media Platforms, any opposition, criticism or questioning is now labeled, 'Misinformation'. One cannot even share this Article on Social Media. Any similar type of write-ups has had People being blocked for 'Misinformation'. The point is the need to have Informed Consent.

If People are fine with having Aborted Cell Lines in their Beauty Products, Food or Injections passing for a 'Vaccine', go for it. But give People the information, truthfully and allow them to Not Consent. Otherwise, it is a façade, a Lie from the Pit of Hell. Why is it important? It is because Medical Personnel, one's own Personal Physicians are the type of People one most comfy in. It is akin to confessing to a Priest or Ministry in such a close level of confidence. This has now been compromised and broken for relying in Medical Science. But this has been the plan and the 'Sacrifice' or price to pay. Why? The Powers-That-Be want as many Humans taking their 'Ingredient'.

It is not about providing Immunity, 'Safe and Effective', nor about saving lives. It is on the contrary. How on Earth can Science use the Death of one to Save another because of it? Was not the Nuremberg Trials all about this and how all Nations in theory agreed to Ethics in Medicine; to precisely have Informed Consent, Do No Harm and not experiment in Children? The Nuremberg Code has been stricken off the pages of Medical Journals and Research. This is despite how in the Medical World, Informed Consent has to be given by Law. The vast majority of People receiving the COVID-19 Injections have not been 'Informed' of their Right to Consent or not. When anyone has practiced deception in this case, they are breaking the Law and it is Malpractice.

What would help is that if the FDA and the CDC would use an Outside Independent Advisory Board when reviewing Pharmaceutical Company's Medical Products or request of Emergency Use Authorization. They do not and will not. Why not? It is the very Pharmaceutical Companies that foot the Budget for these Federal Agencies. About 90% of their Drug Reviews get approved. One wonders why? Yet, brave Employees like this Pfizer one risks all to warn the World of this Pharmaceutical Façade, at her own peril and that of her Family's. She will be attacked in the Social Media and Mainstream, that by the way are also sponsored by Big Pharma. She will be called a Conspiracy, Anti-Vaxxer, etc. The following is the interview.

Melissa Strickler, Pfizer Quality Auditor

I work at a Pharmaceutical Company. I am not an Anti-Vaxxer. I just believe in research and science.

Project Veritas Interviewer

In this database, you came across a chain of emails discussing Fetal Tissue and the code vaccine. Vanessa Gelman who works in Washington DC, is Senior Director, Worldwide Research, 'The question came up as an inquiry to our Med-Info Group. They are asking, did Pfizer make use of a Cell Line from an Aborted Fetus?'

Melissa Strickler, Pfizer Quality Auditor

They want you to leave out the highlighted part, which is the 'One or more Cell Lines with an origin that can be traced back to Human Fetal Tissue has been used in Laboratory Tests associated with the Vaccine Program'.

Project Veritas Interviewer

And here we have your Badge. You are an Employee of Pfizer?

Melissa Strickler, Pfizer Quality Auditor

I work at the McPherson, Kansas Plant. It is one of the biggest Plants in the Operation of Pfizer. We produce some of the most Units.

Project Veritas Interviewer

This message from Vanessa Gilman,

Melissa Strickler, Pfizer Quality Auditor

'From the perspective of Corporate Affairs, we want to avoid having the Information on the Fetal Cell Lines floating out there. We believe that the Risk of communicating this, right now outweighs any Potential Benefit that we could see particularly, with General Members of the Public who may take this Information and use it in ways we may not want it out there. We have not received any questions from Policy Makers or Media on this issue in the last few weeks. So, we want to avoid raising this, if possible'.

Project Veritas Interviewer

Wow.

'We believe that the Risk of communicating this right now, outweighs any Potential Benefit we could see'. They ought to put that on American Currency. Philip Dormitzer, Vice President, Chief Scientific Officer. These are not Low-Level people here. So, you are showing us emails between the Vice President of Pfizer, the Senior Director of Worldwide Research about how to 'couch it', a certain way because we would not want to tell the People that it can be traced-back to Human Fetal Tissue. 'Copying Vanessa Gelman... We have an approved answer to this question'. The question being about Fetal Tissue? Which Vanessa can probably provide. HEK2932? What does that mean?'

Melissa Strickler, Pfizer Quality Auditor

HEK: Human Embryo Kidney Cells and it was from Experiment 293.

Project Veritas Interviewer

They have used Cells from Aborted Fetuses?

Melissa Strickler, Pfizer Quality Auditor

Yes.

Project Veritas Interviewer

And they do not want the Public to know that?

Melissa Strickler, Pfizer Quality Auditor

Yes.

Project Veritas Interviewer

That is staggering for Society because of what you said, Religious Exemptions.

Melissa Strickler, Pfizer Quality Auditor

And they are denying our Religious Exemptions at Pfizer.

Project Veritas Interviewer

This is serious stuff you are dealing with. These are these are Powerful People and a very Powerful Company.

Melissa Strickler, Pfizer Quality Auditor

They are withholding knowledge on People's approval if they can Consent or not.

Project Veritas Interviewer

From Sarah Elizabeth Weiser, the Principal Scientist...

Melissa Strickler, Pfizer Quality Auditor

Uh, she is just making sure, you know... 'Just be clear, you would like medical information to reply with the text in red below including, the highlighted section? Thanks again'... And then they responded with.

Project Veritas Interviewer

'No. I would prefer that we do not use the text in yellow'.

Melissa Strickler, Pfizer Quality Auditor

They are being so deceptive in their emails it's almost like, it is in the Final Vaccine. Tt just made me not trust it.

Project Veritas Interviewer

There was an issue with the FDA and...

Melissa Strickler, Pfizer Quality Auditor

I heard something about there doing some sort of Tests in there with Lights, but I am not sure. And I said, in Unoccupied Rooms and in a Group Lead Office? And he goes, 'Well, the FDA is coming'. I could not believe that they were blacking-out windows, down in our Manufacturing Rooms. We are told that you should be seen at all times. That we need to make sure that we have High Integrity. And the rooms that are like this one where you can see my reflection, it is a Group Lead Office, where they just do the paperwork for the Batches. So, why does that need blacked out?

Project Veritas Interviewer

And why did you decide to come to Project Veritas?

Melissa Strickler, Pfizer Quality Auditor

Because I felt it was the right thing to do. I feel like I have no one else to turn to when my own Company won't be honest with me. What I was told to do was to trust Project Veritas. And to go with you Guys, by Law-Makers by Lawyers.

Project Veritas Interviewer

Really?

Melissa Strickler, Pfizer Quality Auditor

I was really genuinely traumatized and sickened from the things I saw. And I needed to leave there. So, I just took a Leave of Absence so that I could gather my thoughts and really, kind of heal from this information.

Project Veritas Interviewer

The extraordinary act of Blowing the Whistle on the Company and publishing emails from their Vice President is another step entirely? Are you... are you afraid of doing this, a little bit?

Melissa Strickler, Pfizer Quality Auditor

I have Faith that I will be protected or whatever the outcome, is what it is supposed to be. So, I am at peace with it. I am a little anxious on what they will do or what they will say but it needs to be seen by the People. Because they are trying to get this to Kids. And if they are being this deceptive about it, I do not feel comfortable being silent.

(Intermission and some Replay)

Melissa Strickler, Pfizer Quality Auditor

I work at the McPherson, Kansas Plant. It is one of the biggest Plants in the Operation of Pfizer. We produce some of the most Units. We handle the Product daily. Quality gets to see the process from fill to pack. So, we see everything.

Project Veritas Interviewer

How long have you worked there?

Melissa Strickler, Pfizer Quality Auditor

Going on 10 years, but I have been in Quality for 5.

Project Veritas Interviewer

Tell us about what you saw that concerned you.

Melissa Strickler, Pfizer Quality Auditor

Accidentally, honestly was going to do a Google Search on our computer in Plant and I must have clicked the wrong Box on our Homepage and searched in our Database instead. And I saw Reports of what I had searched for. And I'd click them and then I realized that they were Internal Documents on our Internal Pfizer Database.

Project Veritas Interviewer

In this Database, you came across a chain of emails discussing Fetal Tissue and the COVID Vaccine. Tell us about that?

Melissa Strickler, Pfizer Quality Auditor

What was troubling to me was they were wanting to keep it under wraps. They did not really want the information out there, that they were using the HEK Cells to do the Study. They are being so deceptive in their emails. It is almost like it is in the Final Vaccine. They are just being really deceptive. And they are being careful with their words. And it just made me not trust it.

Project Veritas Interviewer

Vanessa Gelman who works in Washington DC, is Senior Director Worldwide Research Advait's talking to Vanessa and says, 'The question came up as an inquiry to our Med Info Group, they are asking, quote, 'Did Pfizer make use of a Cell Line from an Aborted Fetus when carrying out any Tests? This is after we had already confirmed with the Customer that no Cell Lines when a border feed is used'. Vanessa wrote February 4th of this year.

'Thanks so much. -Who is this information for we have been trying as much as possible to not mention the Fetal Cell Lines. So, we would really like to stay focused on the first part if possible -this is what we have said most recently for inquiries received via our Board of Directors through direct emails to Michael Dolsten...The piece in yellow we have tried really hard to not share unless it's strictly necessary and mission critical.

Melissa Strickler, Pfizer Quality Auditor

The acceptable phrase you are allowed to say is, 'The Human Fetal derived Cell Lines are not used to produce our Investigational Vaccine which consists of Synthetic and Enzymatically produced Components'. But then they want you to leave out the highlighted part which is. 'The one or more Cell Lines with an origin that can be traced back to Human Fetal Tissue has been used in Laboratory Tests associated with the Vaccine Program'.

Project Veritas Interviewer

I mean, this is pretty... they are trying to keep this Secret from the Public.

Melissa Strickler, Pfizer Quality Auditor

They do not want to stir-up a mess. They do not want to have to deal with People who are upset because, I think People can use Religious Exemptions for it. And they do not want that. I think they want ...nobody to have an Excuse to not get it.

Project Veritas Interviewer

They have used Cells from Aborted Fetuses.

Melissa Strickler, Pfizer Quality Auditor

Yes.

Project Veritas Interviewer

And they do not want the Public to know that.

Melissa Strickler, Pfizer Quality Auditor

Yes.

Project Veritas Interviewer

And that ...is staggering for Society because of what you said, Religious Exemptions.

Melissa Strickler, Pfizer Quality Auditor

And they are denying our Religious Exemptions at Pfizer.

Project Veritas Interviewer

And this could change that because People who have Religious Views?... That certainly changes the Game doesn't it?

Melissa Strickler, Pfizer Quality Auditor

Yes.

Project Veritas Interviewer

These are Powerful People and a very Powerful Company.

Melissa Strickler, Pfizer Quality Auditor

They are withholding knowledge on People's Approval, if they can Consent or not.

Project Veritas Interviewer

This is Philip Dormitzer, Vice President, and Chief Scientific Officer, 'Copying Vanessa Gelman, We have an approved answer to this question... (The question being about Fetal Tissue), which Vanessa can probably provide. HEK2932... (What does that mean?)

Melissa Strickler, Pfizer Quality Auditor

HEK: Human Embryo Kidney Cells and it was from Experiment 293...

Project Veritas Interviewer

'On the other hand the Vatican doctrinal committee has confirmed that they consider it acceptable for Pro-Life believers to be immunized'

Melissa Strickler, Pfizer Quality Auditor

He is basically saying, why don't we just say, the Vatican's already said that. They have no excuse to not take it if it is in there. Like he is like, why aren't we just, you know being honest, kind of things. That is how I read it.

Project Veritas Interviewer

So, what is the difference between this 'Approved Answer'...'HEK Cells used for the IVE assay, are ultimately derived from aborted fetus'... and the other one they're trying to keep secret?

Melissa Strickler, Pfizer Quality Auditor

Well, it is almost like they are doing a Script. They are sticking to a Script like, 'We have had this approved, this Verbiage is approved, so this is what we need to stick to'. When rather, they should just be making it as clear and easy to understand for the Population so that they can make Informed Decisions on this.

Project Veritas Interviewer

You are showing us emails from the Vice President of Pfizer, the Senior Director of Worldwide Research, about how to couch it a certain way, because we would not want to tell the People that it can be traced back to Human Fetal Tissue. 'We have tried really hard to not share...'One or more cell lines back to human fetal tissue'. From Vanessa Gelman to the Vice President of Pfizer...

Melissa Strickler, Pfizer Quality Auditor

'A lot of people go to medical information, so i would prefer if possible we respond with what we have consistently said. We wouldn't like to have any inconsistency out there, particularly with information that has been shared with policymakers in the media'. So, what I gathered from this was, 'We have already made a Statement. We have to stick to that. We cannot stray because it will make us look bad.

Project Veritas Interviewer

This is the Principal Scientist in Massachusetts [Sarah Weiser] and what happens here?

Melissa Strickler, Pfizer Quality Auditor

Uh, she is just making sure, you know... 'Just be clear, you would like medical information to reply with the text in red below including the highlighted section? Thanks again'. And then they responded with.

Project Veritas Interviewer

'No. I would prefer that we do not use the text in yellow'.

Melissa Strickler, Pfizer Quality Auditor

Do not be that honest, just a 'little honest'.

Project Veritas Interviewer

Vanessa Gelman is sending this note saying, she does really not want you just to know that they are using...

Melissa Strickler, Pfizer Quality Auditor

...more than one.

Project Veritas Interviewer

Cell Lines from Human Fetal Tissue. 'I received last night a similar request via Laura Payne'... So, there are multiple Executives in Pfizer asking vanessa Gillman.

Melissa Strickler, Pfizer Quality Auditor

So, they just cannot be honest with us?

Project Veritas Interviewer

There is something that Vanessa says involving the 'Facebook Campaign'?

Melissa Strickler, Pfizer Quality Auditor

'I completely understand, but I just want to make sure we are responding to a legitimate request and not to a request that may ignite a Facebook campaign on this that we may ultimately need to manage'. They do not want People making Awareness, I guess. They know what they are doing.

Project Veritas Interviewer

They are afraid of the People being aware of this.

Melissa Strickler, Pfizer Quality Auditor

Yeah

Project Veritas Interviewer

And it really... this one is interesting because it shows you that they ultimately fear the People on Social Media knowing this. It is almost like this is what they fear the most.

Melissa Strickler, Pfizer Quality Auditor

Yeah. They want People to take their 'Vaccine'.

Project Veritas Interviewer

Yeah right. It is interesting that that Facebook too is censoring anything that is critical of this 'Vaccine'.

Melissa Strickler, Pfizer Quality Auditor

And factual... like ,uh when I am an Employee and I make an opinion, I get Fact-Checked.

Project Veritas Interviewer

I mean, this very Interview will... may be censored or banned. They are probably going to label these screenshots of the Vice President and Chief Scientist, Advisor and your comments as 'Misinformation'. And your response to them is?

Melissa Strickler, Pfizer Quality Auditor

I have worked there 10 years. I have been trained there. There is no way. I know the process. I love my Job. I know my Training.

Project Veritas Interviewer

This message from Vanessa Gilman CCing all these Executives. What are we looking at here?

Melissa Strickler, Pfizer Quality Auditor

She just says things like, 'Thanks so much for everybody for keeping us in on the loop from the perspective of corporate affairs. We want to avoid having the information on the fetal cell lines floating out there. As you can all appreciate, we are communicating on this vaccine across multiple fronts and managing issues that arise. In this heated environment of heightened scrutiny on every detail of our vaccine, we would like to avoid creating an opportunity to raise an issue -we believe that the risk of communicating this right now outweighs any potential benefit that we could see, particularly with general members of the public who may take this information and use it in ways we may not want it out there. We have not received any questions from policy makers or media on this issue in the last few weeks, so we want to avoid raising this if possible.'

Project Veritas Interviewer

Wow.

'We believe that the risk of communicating this right now outweighs any potential benefit we could see'. They ought to put that on American Currency. That is the final decision from Phil Dormitzer. 'The statement has been extensively vetted'. Best. Phil Dormitzer, Vice President.

There was an issue with the FDA and windows being grayed-out?

Melissa Strickler, Pfizer Quality Auditor

My last day there, I took a Mental Health Leave of Absence after this from my Job. Because I was sickened and traumatized from a lot of the things that I realized were going on. It really upset me and it shook me. I could not believe that they were blacking-out windows down in our Manufacturing Rooms.

Project Veritas Interviewer

Why would they want to do that?

Melissa Strickler, Pfizer Quality Auditor

Well, I was wondering that as well. Especially because they are rooms that there is no need for that. Like where they tell us, you know, 'Make sure you can be seen at all times' for Integrity Purposes, you know.

And so, when I saw there were blacking-out windows in Group Lead Offices and in ...Unoccupied Fill Rooms. I thought it was odd. So, I raised it to someone in AQ, which is Aseptic Quality. And I said, hey do you know why they are blacking-out windows down in Manufacturing? And he said, 'Well, the FDA is coming'.

Project Veritas Interviewer

So, you know, I have a Friend who you know says, 'I do not know why everyone's making this so Political Science', you know. People are so divided on this issue. What do you say to the People who are Pro-Vaccine who are not in the Pharmaceutical Industry. They are just 'Regular People' in New York City who think, you got to take that 'Vaccine'. Stop making it Political.

Melissa Strickler, Pfizer Quality Auditor

It should not be Political but they're making it Political. The Media and the Government's making it Political. But this is not about Republican-Democrat or Liberal or Conservative. This is Informed Consent on injecting something inside of you from a Company that is called it an 'Experimental Vaccine'. This is about when you see something that is being done, that you do not think is right and exposing it.

Project Veritas Interviewer

I do not know if anyone is ever done this before. I mean, I do not see much Investigative Reporting into Big Pharma. Certainly not emails from Executives. Are you afraid to be a current Pfizer Employee Blowing the Whistle on Pfizer?

Melissa Strickler, Pfizer Quality Auditor

Yeah. I am a little anxious and nervous at what they may think or do. I was... I was really genuinely traumatized and sickened from the things i saw. And I needed to leave there. But I did not want to be quit because I did not know what to do. I just did not know what to do. So, I just took a Leave of Absence, so that I could gather my thoughts and really, kind of heal from this Information.

Project Veritas Interviewer

You have taken a Leave of Absence, but the extraordinary act of Blowing the Whistle on the Company and publishing emails from their Vice President, is another step entirely. Are you...are you afraid of doing this?

Melissa Strickler, Pfizer Quality Auditor

A little bit...but i have Faith that I will be protected or whatever the outcome is what it is supposed to be so. I am at peace with it. I am a little anxious on what they will do or what they will say. But it needs to be seen by the People, because they are trying to get this to Kids. And if they are being this deceptive about it, I do not feel comfortable being silent while they are trying to get it to Babies who cannot talk.

Project Veritas Interviewer

What do you think the reaction will be to this?

Melissa Strickler, Pfizer Quality Auditor

I pray that it unites us. That we can look and go... 'What are they doing'? Like, why... what do they think they are doing to us? Why do they think that they can just say this to us and make us take something when they are not even honest about what they are doing or what is in it.

Project Veritas Interviewer

And your Husband, here is on set with us. I won't mention his Name, but what does he think about what you are doing?

Melissa Strickler, Pfizer Quality Auditor

When I started to notice some things, I'd mention them and he'd say, you know, 'Well you know, do not worry about it...you know. I am sure it is nothing.' ...And we... I work at a Pharmaceutical Company. I am not an Anti-Vaxxer. I just believe in Research and Science and stuff like that. And so, I was waiting, waiting to get the Vaccine, just to see the Scientific Results. To see how it goes and once I showed him what I had found and once I told him what I had found, I got nothing but love and support.

Project Veritas Interviewer

And why didn't you go to the New York Times or uh the Washington Post which Tagline is, 'Democracy dies in darkness.' They seem like they do decent work and also. Why not go to Congress with this Information?

Melissa Strickler, Pfizer Quality Auditor

Well, I have spoken to Lawyers. I have spoken to People. And this is what I was told to do, was to trust Project Veritas. And to go with you Guys by Lawmakers by Lawyers.

Project Veritas Interviewer

Really?

Melissa Strickler, Pfizer Quality Auditor

Whistleblower Lawyers told me that, some things are better Leaked to the Media than doing it the other way. I think this just needs to get out there, so that People can realize we are being deceived.

Project Veritas Interviewer

Lawyers told you to come to Veritas?

Melissa Strickler, Pfizer Quality Auditor

Yes.

Project Veritas Interviewer

Whistleblower People, told you to come to Veritas

Melissa Strickler, Pfizer Quality Auditor

Yes. They said, if I go the route with them, the Lawyers, it could be 3 years before this comes out. And that was from someone in the DOJ [Department of Justice], so.

Project Veritas Interviewer

DOJ individual told you that?

Melissa Strickler, Pfizer Quality Auditor

Yes.

Project Veritas Interviewer

Under the Biden Administration?

Melissa Strickler, Pfizer Quality Auditor

Uh, he was in there 17 years. He is not there now, but he was for 17 years. And he advised that I bring this to you Guys because it could take years. And if they are trying to get this to Kids soon, it is just...it is not going to be enough time.

Project Veritas Interviewer

Is there anything else you want to say on the record? There is going to be millions of People that watch this.

Melissa Strickler, Pfizer Quality Auditor

Yes.

I'd like to say something to Pfizer. You Guys are very adamant about Integrity and making sure that things are done right. And that things are always Double-Checked. But I am just one person, one face of many of your Employees who are willing to fight this. And reveal to the World what is going on. And all we want is for you to be transparent and honest with us and do the right thing.

So, such revelation and evidence presented from the very beginning of this COVID Façade was considered, 'Crazy' and 'Misinformation'. People 'Rolled their Eyes' and walked away saying, 'We Believe in Science'. They said, 'We Trust the Doctors'. Consider that such 'Conspiracies' disclosed and warned about from the very beginning have all come true now. Conspiracy Theorists showed proof of the following.
1-Aborted Fetal Cells were in the COVID-19 Injections. True.

- 2-Fauci funded Gain of Function in the Wuhan Lab. True.
- 3-Nono-Bots were incorporated in the COVID Shots. True.
- 4-COVID Camps were being built for Green Zones. True.
- 5-COVID Shots were going to be Government Mandated. True.

Fetal cells being used is the last thing many care about honestly. The fact is though that now, Children and Healthy People are being coerced into taking these types of 'Vaccines'. It is all by design. This is the Plan? What is the Plan? That by Economic Pressures, Travel Restrictions, or Blackmail about losing one's Job, People will succumb to this Evil Tyranny misusing Science, in the name of Science to

- 1) Contaminate.
- 2) Control.
- 3) Cull.

It is a 'Divide and Conquer Tactic. For example, some Doctors in some countries are refusing to treat Un-Vaccinated People, this is 1 of the many desired Outcome. People may not care about Aborted Babies, but their Children? They are being put in harm's way and are in danger. Save the Children. Parents. For the Love of Your Children, Do Not Consent.
