ONE SOUL AT A TIME

KJV-NY Churches Spreading an Illustrated Bible

This KJV Project is to get an illustrated Bible out to the world. I am not asking for any support at all as I am self-sufficient and I also profit from the sale of products and commissions.

The intent was to have this as a ministry of the church, but I am waiting to establish a following for this feat. At some point I wish to have it approved by a pastor and for it to become part of his church ministries.

This project started some 10 years ago, but it underwent some changes to bring it to its fruition here. I now offer prints of my art, books with my illustrations including the entire KJV Bible. I also offer commission graphic design (such as publications, books,

signs, murals, etc) and commissioned art. The project includes a website, facebook page, and a newsletter.

I hope to travel to any church looking to have my table and say a few words about what I do in a short Bible message. This would only require the cost of a Greyhound bus and a place to stay for the Saturday night. I would go soulwinning Saturday and Sunday after church.

The Word of God has the answers of a person's and nation's questions about how to get along with each other

and God that we might have the blessings we so need. May this project assist pastors in NY with that duty. ■
