Amerithrax Investigation,

In addition to my previous inputs via this online tip method, I provided information to the FBI within days after the Oct 15, 2001 letter attacks. Because I was on the phone with Sen. Daschle's office at the moment they opened the laced letter and evacuated their office, I felt it was important to keep the FBI informed of my experiences and knowledge on the issue. One agent, [REDACTED], from your NYC office confirmed he provided my information to the NYC "SAC", and at another point the "SIOC" emailed me. I had cursory contact with three other agents as well, so hopefully you have my previous inputs.

In addition, it's important that I highlight one additional case for your cross-reference. DoD IG / DCIS cases, #'s 84142, 79472 and 79473, were also referred to the FBI by the DoD. These cases dealt with allegations of illegal conduct regarding the anthrax vaccine, Ft Detrick scientist's adulteration of the vaccine, and false testimonies by DoD officials to the Congress. The DoD IG referred the cases to the Defense Criminal Investigative Service (DCIS), who in turn referred it to the FBI on November 20, 2002, per a DoD IG Hotline tracking data form I received. These cases may be helpful as your investigation continues as a means of reviewing the historical depth of the controversy regarding the anthrax vaccine.

Please do not hesitate to contact me if I can be of further assistance.

Sincerely, Thomas L. Rempfer
