

Sunrider Product Highlights:

Bella & Beauty Pearl

Thank You to Sharon F. Ekins, Sunrider Executive Business Leader, for this information.

The 'Bella' Name means "Beautiful."

Benefits people have felt, When Using **Bella**:

Silkier skin, no more hot flashes, firmer breast tissue, Decreased cellulite, clearer thinking, decreased fluid retention, smoothing of the "turkey neck", Reduced crow's feet around the eyes, easier time losing weight, More ambitious, More Productive, More confidence, Nicer sustained energy, sense of well-being, more ambition, warmer hands and feet, replenishing moisture in formerly dry eyes. More romantic, smoothing of vertical wrinkles, around the mouth, fewer mood swings.

Bella helps women go through change of life easier. It is for women pre menopause, menopause, and post menopause. Generally for women 40 or over. Helps balance hormones and estrogen balance. This is critical for absorption of calcium and prevention of osteoporosis, osteo-arthritis, and arthritis. Also helps with Fibromyalgia or muscles aching. You need to eat Herb Cal or dandelion root to make sure you are getting enough calcium. But Bella and Beauty Pearls, both, will help the absorption of calcium into the body systems for better bones, teeth, AND HAIR, you commented on. Also skin, as was indicated earlier.

Bella just really makes a woman feel, and look younger, and really increases sexual desire.

I recommend all women use Bella over the age of 40. And the most important thing to remember is that there are no side effects, like causing cancer, like the medical Hormone Replacement Therapy. They have finally wakened up to that fact now. I have known it for years. But we have the very best product in the world for helping women, and it is SAFE.

Bella is a relatively new product SR has made. And it is so concentrated, It has over 50 pounds of plant herbs concentrated down to one. It is the most concentrated of any products Dr. Chen had developed. He had a breakthrough in technology to be able to do this. That is why it is in a bottle of only 50. Two a day is enough for maintenance, I have found for me. But if a woman is dealing with menopause symptoms, she can take more. I started taking 4 a day, but now maintain with 2.

It is one of the greatest products we have for women to help them be balanced and like God intended for us to be, at an older age. I love Bella, and would recommend it to all women who are the right age for it.

Younger women can use Veros if they have problems as well as Beauty Pearls.

The Beauty Pearl:

The Beauty Pearl is timeless and ageless and for all genders. It was an ancient formula developed for the Empress of China as a tonic to preserve youth and beauty. It nourishes internally the body that directly affects the skin. It has a mineral Silica in it that helps with skin cracks or ground cracks that people sometimes get on their hands and feet.

Again this food helps the hormone balance in the body, and is more general than Bella. As Teenagers get great benefits with hormonal changes that affect their moods, as well as their skin. It is a must for Teenage acne to be eaten daily for teenagers, boys or girls. It is wonderful for men, as it helps them to be able to deal with anger and mood swings. I noticed it mellowed out my first husband John when we got B. Pearls, and he ate one a day. He had a short fuse and was easy to anger, and had a temper. I think the B. Pearl made a huge difference in his personality becoming more mellow and easier to get along with.

The Beauty Pearl also helps with the hormone balance and the body's ability to absorb and assimilate Calcium and other minerals key to bones, teeth, nerves etc.

The Beauty Pearl helps men and women to have a younger appearance, especially in the skin. I have a wonderful distributor in Scotland, Bunny, who is a delightful Gentleman in is late 80's. People always comment on his youthfulness and skin and he proudly tells them "I'm on the Pearl". And he sells a lot of SR and Beauty Pearls. His skin looks so good, and he knows it, and takes advantage of it by promoting SR.

I know before we had Bella, that I would take as many as 6 Beauty Pearls a day, when flying doing my SR business. I learned that flying depletes the hormones and calcium in the body. So I would have to take more to slow down the hot flashes. But I can use Bella now, and can take less.

I have also had ladies tell me that Beauty Pearls helped with migraine headaches.

So you may ask which one should you take? I eat them both every day. I find that the Beauty Pearl has definite benefits specifically for the skin. And the Bella has specific benefits, a little stronger for balancing the hormones. I feel I personally need them both and do better when I take both every day as part of my SR Food routine. I suggest you consider eating both, and don't forget to give them to the men in your life. It makes all the difference in the world.

I hope this helps educate you more on these two wonderful products. Please share and teach your downline about these to very important food products. This information is my experience and knowledge.

Enthusiastically,

Sharon F. Ekins
