

MALLA Loon Survey

Year _____

Malcolm Lake

Ardoch Lake

Please record only the highest number of loons seen in the day. If you see one loon in the morning and two loons in the afternoon then the total for the day would be two loons. Please note chicks separately and mark with a "C". For instance, if you see two adults with one chick record that as "2+1C". You can record anything of note about their behaviour, appearance, and activities in the Notes column. Please identify the location by using the Zones indicated on the maps of Malcolm and Ardoch Lakes provided on page 2.

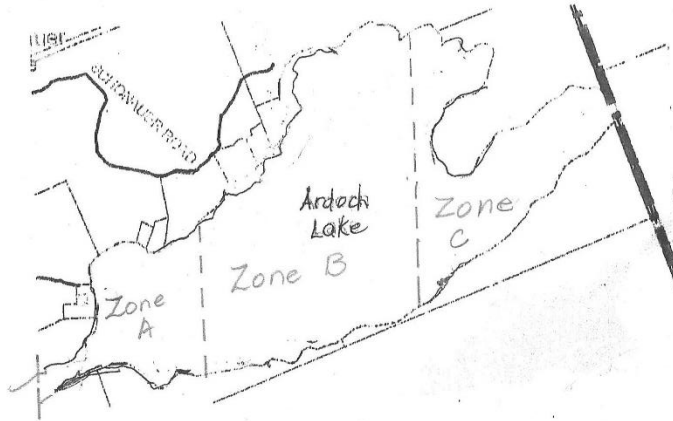

Date	Count	Zone location	Notes

Please send a record of sightings to the following MALLA Loon Watch recorders:

on Ardoch Lake to Ruth Cooper recooper424@gmail.com

on Malcolm Lake to Mary Graham rkolig@yahoo.com
