Address Printers

Desktop Address Printing Systems

Addressing Systems

Desktop

The cost effective way to boost productivity.

Choose from a full line of comprehensive, efficient, and effective address printing solutions designed to fit conveniently on any desktop. Print addresses, attention lines, postal barcodes, return addresses, and permit indicia. This complete selection provides the flexibility you need to cost-effectively boost productivity, enhance image quality and meet all USPS® requirements.

All FP™ AJ model printers are networkable over a Wi-Fi connection.

AJ-140

The AJ-140 Address Printer is fast, economical and easy-to-use. Featuring reliable inkjet technology, the AJ-140 prints sharp addresses, graphics, logos, and barcodes on your media. With a print quality of up to 600 dpi, you can depend on clean, smear-free printing every time. The user-friendly color touchscreen simplifies printer operation and monitoring. You can view print status, ink levels, job status and more all at a glance. You can also set the touchscreen menu buttons to control frequently used printer functions. Built to last with solid steel construction.

Pair with software for additional features and savings
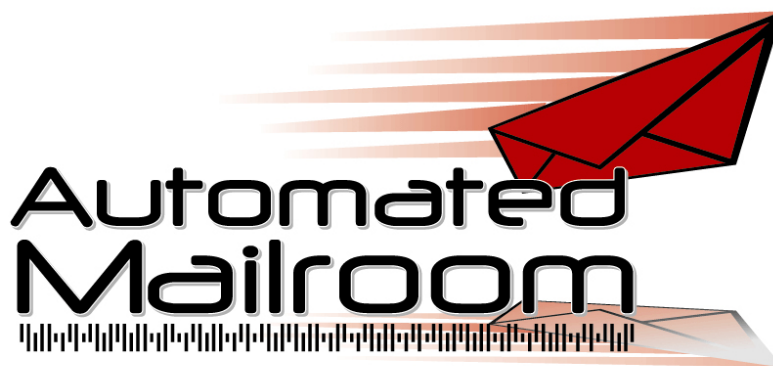

FlexMail™ Software

FlexMail™ software makes it easy to connect to, clean and organize address data from any source and print graphically rich personalized envelopes on any printer. FlexMail™ can link to external databases and manipulate data from any industry standard data format. It can also create designs with any envelope or label size, add fixed or variable text, barcodes, and any common graphic format as background and foreground elements. The presort capability feature can help save 10-20% off postage.

Comes in three different editions to fit your needs and budget:
1. FlexMail Basic
2. FlexMail Advanced
3. FlexMail Professional
