

J2 Hardware Ltd has over 20 years of experience designing and manufacturing door handles for the UK construction industry. All our handles are designed and manufactured in house using the highest quality raw materials and are expertly finished to ensure they not only look good but can withstand the demands placed on them in high traffic commercial environments.

This brochure shows some of the popular selling handles we manufacture. If you cannot find what you are looking for or need something specifically designing please do not hesitate to contact us.
