

1. The Arizona Federation of Republican Women (AzFRW) will provide a section on the AzFRW website for each Club to list general meeting information, website and social media links and Club contact information. Authorized changes to Club listings would be made to the Webmaster by an Executive Committee member in that club, in good standing with AzFRW.
2. Changes to the Club listings will be made as soon as possible and should be emailed to the Webmaster. The AzFRW Treasurer and Secretary should also send any changes they become aware of to the Webmaster and State President, so club listings are current.
3. If a Club has a self-managed website, it will be linked to the AzFRW website after it has been reviewed by the Webmaster. If there is a question regarding material presented on the Club website the link will be dropped temporarily until approval by the website committee and the AzFRW President. If the material conflicts with AzFRW and NFRW policies the Webmaster will remove the link. The Club website will have general contact information only until the objectionable material is removed. Repeated offenses will result in the Club not being able to link their website to the AzFRW website.
4. Links from the AzFRW website to other organizations other than the Republican Party and NFRW will be approved by the AzFRW Executive Committee. The request to link to the website must be referred to the AzFRW President for approval by the Executive Committee.
5. Annually, the AzFRW Secretary should send copies of the Club Update Form to the Webmaster so club listings may be updated to reflect Club contact, website or general meeting changes.
