

Notary Services are not typically something you think of when you want to plan your vacation. But are you taking a cruise with the step-kids, planning a Destination Wedding, School group or a Mission Trip, a single parent traveling to the Caribbean with your child?

If so, you need a travel agency that is truly “full-service” offering everything you need to plan your trip...including notary services.

**Family Vacation with the Step Kids** - you will need a notarized letter of permission from the biological parent that is not traveling, giving you permission to take the minor child out of the country without them.

**Destination Wedding** - most destination wedding locations require notarized copies of legal documents in order to process your marriage license.

**Single Parent Traveling with a minor child** - Mom and Daughter trip? Even if Mom and Dad are married, Mom will need a notarized letter from Dad giving his permission for travel.

**Minor Child traveling outside the US without parents** - School trip? Church Mission Trip? If the child is 17 or younger, and will be traveling without Mom and Dad, a notarized letter of permission is required.

With an in-house Notary Public, Earman Travel can take care of all your needs!
