

DMR EMPLOYMENT ~ JOB ANNOUNCEMENTS

ENGINEERING TECHNICIAN

The Engineering Technician position assists with inspection, repair, equipment, tooling, and general maintenance of the Airborne Mine Counter Measures (AMCM) MK-105 MOD 4 Magnetic Minesweeping System and related support equipment. Responsibilities include testing, troubleshooting, maintenance, minor repairs, and delivery of ancillary equipment. This on-base position supports the Naval Surface Warfare Center Panama City Division (NSWC PCD) In-Service Engineering Agent (ISEA) with receiving, preparation, cleaning and storage of government property and equipment (GFP/GFE). Candidates with Forklift Certification and/or Commercial Driver's License (CDL) are preferred to facilitate transportation of materials, components, and sub-assemblies on base or to the contractor's Depot Repair Facility. The position assists NSWC PCD technicians and engineers with the evaluation of metal deterioration or damage based on assessment requirements and project priorities. Experience testing mechanical and electrical sub-assemblies utilizing specialized tooling and test sets. Prefer candidates with DoD or military experience who can follow technical instructions, engineering drawings, depot maintenance procedures, and safety requirements. Prefer candidates with A&P certification and/or IPC J-Standard soldering skills a plus. Must be a team player with good communication and problem solving skills.

REQUIRED QUALIFICATIONS:

- Must be U.S. Citizen
- High School graduate or equivalent
- Must have 5 years direct experience engineering technician
- Must complete background check and be eligible for government security clearance

BASIC QUALIFICATIONS:

- Demonstrate technical knowledge in reading and interpreting maintenance procedures in accordance with manufacturing drawings and specifications.
- Assist with refurbishment of custom sheet metal products and fabrication of military equipment using specialized tooling and testing instrumentation.
- Assist with project solutions for parts obsolescence and spares needed for repair and maintenance.
- Must be able to lift, carry, and pull up to 50 lbs. in loading equipment or supplies
- Applicants with OSHA certifications and/or previous government training preferred.

Submit resume, cover letter, and (3) professional references to employment@dmcinc.com
