## ***Metro Tile™ -II***

***Timeless Mediterranean  
Style with today's  
advanced materials***

Metro Tile™ -II is a unique state-of-the-art batten-less design that is changing the re-roofing industry. Each panel is press-formed with the graceful scalloped curves that simulate low-profile tile and create an exceptionally lightweight (1.5lbs/Sq ft.), strong and secure steel roof covering to suit any property.

The advanced coating technology and interlocking batten-less design of the Metro Tile™ -II panels eliminates costly wood battens allowing for faster install times.

Metro Tile™ -II delivers proven heavy-duty wind and weather performance. And our attractive color palette lets you choose just the right touch for a look that can transform your home – Metro Tile™ -II.

## COLOR RANGE

<b>BIRCH-II</b> (Black Accent)			<b>TERRA COTTA</b> (Light Tan Accent)
<b>CHARCOAL</b> (Solid Color)			<b>WALNUT</b> (Black Accent)
<b>MISSION RED</b> (Solid Color)			<b>WEATHERED TIMBER</b> (Black Accent)

Above chart shows STANDARD STOCK COLORS for Metro Tile-II™ panels.  
Always select colors from ACTUAL samples.  
PREMIUM, SPECIAL, and CUSTOM COLORS and Flashings are available.

## Metro Tile™ -II

### Lightweight roofs delivering heavy-duty performance.

Metro Tile™ -II is finished with an attractive stone coating embedded in a UV resistant acrylic polymer for a lasting bond to the 26-gauge \*Galvalume® steel covered with 100% acrylic over-glaze.

#### Purchase with Confidence

All Metro products provide heavy-duty warranty performance, from 120-mph winds to hail impact and fire resistance. Take a look at today's steel roofing and select from a wide range of earth-tone colors to suit your home. For years we've been a leader in the design and production of quality stone coated steel roofing, producing a roofing product that is of high quality and affordable.
