

If you haven't heard Brandy Perdue is our new communication/media head, from the contact I've had with her I'm impressed with her efforts and her passion for riding. Welcome Brandy.

If you have not yet contacted your senator about the insurance bill SB 528, please do it. I signed a petition sent to my senator Mike Nofs of the 19 district, I have not had a reply from him or his office. I plan to make a more personal contact once I have more information, that I expect to get from the seminar. While you're at it don't forget your House representative. I got a newsletter from my Michigan house rep.; in it she was praising the insurance reform law. I shot back a reply asking her to back SB 528 and why she should. I got a reply saying she would keep my concerns in mind, if the bill gets to her.

On the Federal front the RPM Act H.R.5434 has been introduced in the U.S. House of Representatives. This Bipartisan bill will allow people to modify their motor vehicles for competition, this includes motorcycles.

Next weekend is the ABATE seminar, there should be a lot of interesting shit happening, there will be meetings, workshops, awards, and of course partying. I'll spend a couple of days getting packed. Hope to see you there.

Nick
