PAINT

SEYMOUR MRO HIGH SOLIDS (ALKYD)

- High solids formulation delivers single-coat hiding power.
- Protects against weather, rust, oil, gasoline, corrosive chemicals and rough service.
- Long-life color retention. (Compared to a standard industrial enamel, it is more resistant to ultraviolet sun rays.)
- For indoor and outdoor use; does not contain lead, CFC's, chromates or chlorinated solvents.

STEEL BLUE LAYOUT Dykem

- Prevents glare with a uniform, deep color.
- Dries in minutes.
- Lets you scribe sharp, clear precise lines.
- Reduces eyestrain.

J&B #	COLOR	FIX CURE TIME @ TEMP	QTY
9097	BLUE	4 minutes @ 77 F	EA

12 in a case

Net Wt. 12 OZ.

Resistance = Oil, gasoline, chlorinated solvents, kerosene, toluene, and synthetic coolants.

Specifications = Translucent.

Flexible, non-cracking and non-chipping.

When applied, provides a thin coating of uniform deep color.

PROTECTANTS & COATINGS

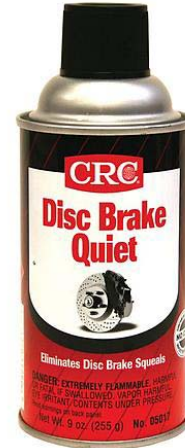

DISC BRAKE QUIET CRC

FEATURES AND BENEFITS:

- CRC Disc Brake Quiet is specially formulated to dampen the vibrations that cause disc brake noise.
- It forms a water-resistant, high temperature film that will absorb noise and quiet disc brake squeal.
- Just spray back of disc pad and reassemble.

APPLICATIONS:

Autos * Trucks * Tractors * Motorcycles *
Marine and Construction Equipment Engines

Net Wt. 9 Oz.

PROTECTANTS & COATINGS

ENGINE STARTING FLUID Premium

FEATURES AND BENEFITS:

- CONTAINS 50% ETHER.
- For all gasoline and diesel engines.
- Complies with federal low sulfur content requirements for use in diesel motor vehicles and nonroad engines.
- Starts engines fast in all temperature and humidity conditions, even down to -65 F.
- Special formulation contains upper cylinder lubricant and an anti-corrosive agent to protect engine components and reduce engine wear.

APPLICATIONS:

Autos * Trucks * Tractors * Motorcycles * Marine
and Construction Equipment Engines

Net Wt. 11 Oz.

FLEX SEAL

Liquid Rubber Sealant Coating

FEATURES AND BENEFITS:

- Easy way to coat, seal and protect.
- Rubberized leak sealer that seeps into cracks and holes to seal out air and moisture.
- Long-lasting, watertight, paintable, flexible rubber coating that won't sag, drip, crack or peel.
- One can treats 2 to 12 square feet.

APPLICATIONS:

Roofs * Skylights * A/C drip pans *
Hoses * Window Seals * PVC Pipes *
Flashings * Basements * Chimneys * Downspouts *
Vent Pipes * RV's & Campers * Trailers * Duct Work *
Foundations... Much more.

PROTECTANTS & COATINGS

COLD GALVANIZING COMPOUND

Loctite

FEATURES AND BENEFITS:

- Electrochemically fuses zinc to metal surfaces to provide galvanic rust protection with 92% pure zinc.
- Protects even when scratched or abraded.
- Dries to a tough, permanent coating in 15 minutes.
- May be painted or left as final protective coating.
- Contains no CFC's harmful to the environment.

APPLICATIONS:

All vehicle bodies * Boats * Agricultural * Mining and Construction Equipment * Bridges * Storage Tanks * Underground Pipe Lines * Touch-up for marred or scratched hot dip galvanized surfaces

Net Wt. 15 Oz.

J&B #	QTY
9256	EA

12 in a case

BELT DRESSING & CONDITIONER

Loctite

FEATURES AND BENEFITS:

- Quiets squeaking belts.
- Specialty formulated and high quality conditioner that eliminates squeaks, aids in power transfer and increases belt life.
- Ideally suited for V belts, flats, canvas, rubber and round belts.
- Prevents rotting and deterioration even under severe outdoor conditions.

APPLICATIONS:

Industrial belt drives * Auto fan belts * Compressors * Pumps * Generators * Fans * Textile Equipment * Farm * Marine * Leather * Fabric Washers * Dryers * Garden Tractors * Refrigerators.

Net Wt. 12 Oz.

PROTECTANTS & COATINGS

METAL PARTS PROTECTOR Heavy Coat

FEATURES AND BENEFITS:

- Long term rust & corrosion protectant.
- Protection up to two years.
- Non-greasy flex film protects atmospheric or salt spray rust & corrosion.
- Easily removed with safety solvent degreaser.
- Coating is flexible. Will expand and contract with all metal surfaces uniformly. Will NOT flake, peel or crack.

APPLICATIONS:

Tools * Dies * Drill Pipe * Bearings * Precision Machined
Surfaces * Cables * Chains * Stampings * Housings *
Jigs * All exposed metal parts

Net Wt. 13 Oz.

PROTECTANTS & COATINGS

WELD-KLEEN Heavy Duty Anti-Spatter

FEATURES AND BENEFITS:

- Base metal and fixture applications become easier to clean and remove unwanted weld spatter.
- Regular use reduces need for grinding and other clean-up tasks.
- A convenient solvent based, quick-drying aerosol that allows for pre-heat, higher duty cycles and higher and higher temperature applications.
- Paintable, non-flammable, no fluorocarbons.
- Excellent for fixture and tooling protection.

APPLICATIONS:

Battery Terminals * Cables * Hold-downs * Boxes * Clamps
Ideal for all batteries: automotive, marine, aircraft, industrial.

Net Wt. 20 Oz.

BRAKE & PARTS CLEANER II (Non-Chlorinated)

FEATURES AND BENEFITS:

- Powerful spray removes grease and oil instantly.
- Effective blend of heavy duty solvents and other degreasers: fast acting and thorough.
- Easily removes brake fluid, grease, oil and other contaminants without disassembling the unit.
- Contains no chlorinated or fluorinated solvents, no lead, phosphorous or silicone.

APPLICATIONS:

Machine shops, Automotive shops or any place where the removal of dirt and greasy soils from metal surfaces is important.

Net Wt. 14 Oz.

CONTACT CLEANER NoFlash Electro LPS Platinum Grade

FEATURES AND BENEFITS:

- Nonflammable. Nonconductive. Fast evaporating.
- No rinsing and no residue. Quick penetration.
- Superior wetting action.
- Meets or exceeds Boeing D6-17487 rev. P specifications.
- Learjet LES 1239. McDonnell Douglas CSD #1.
- NSF Registered K2 - #131303.

APPLICATIONS:

Removes... Dirt * Oil * Grease * Soil

Net Wt. 12 OZ.

ALUMINUM BRIGHTENER Heavy Duty

FEATURES AND BENEFITS:

- A blend of detergents, wetting agents and acids that clean and brighten in one easy operation.
- Fast acting material that foams away even the heaviest diesel smoke trails without hand-brushing.
- Usually used in pressure spray operation, followed by a pressure rinse.
- The aluminum surfaces should be flooded with sufficient material to form a heavy foam blanket, which begins to build immediately upon contact.
- Spray from bottom up; rinse from top down.

LUBRICANTS

3-36

Multi-purpose Lubricant & Corrosion Inhibitor

FEATURES AND BENEFITS:

- Versatile, petroleum-based lubricant, penetrant & corrosion inhibitor.
- Unique viscosity allows it to cover more surface area & penetrate deep into the surface of all metals including steel, copper, brass and aluminum.
- Displaces moisture and leaves a thin, long-lasting film to protect against corrosion and wear.
- Product can be sprayed from any position – even upside down.
- Meets 1998 guidelines for use in meat and poultry plants.

APPLICATIONS:

Tubing * Castings * Gears * Weld rod * Wire * Fixtures *
Dies * Jigs * Shim stock * Chucks * Drill Rod * Heat
treated parts * Machined surfaces * Finished welds * Aluminum extrusions
* Air actuated tools * Conveyors * Frozen joints * Locks * Hoists

Window Slides * Open Gears * Wheel Studs * Printing Presses * Couplings * Door Jams * All Exposed Metal Surfaces * Conveyors * Tools * Roller Chain * Cables * Garage Door Tracks * Manifolds

LUBRICANTS

DRY MOLY LUBRICANT

FEATURES AND BENEFITS:

- Moly-Spray Dry Film Lubricant is an air-drying, solid film lubricant that can be conveniently applied by spray and is ready to use in minutes.
- It forms a thin dry film of molybdenum disulfide which has a low coefficient of friction, and effective corrosion resistance.
- It is non-oily, non-sticky, and will not cold flow, run or drip.
- Performs under extreme pressures (100,000 PSI) and temperatures -100 F to + 600 F (-73 C to + 315 C) Meets MIL-L-23398C specifications.
- Long lasting lubrication. Quick drying. Tight adhesion.

APPLICATIONS:

Conveyors * Couplings * Belts * Pulleys * Chains *
Furnaces * Kilns * Ovens * Gasket Coatings * Muffler
Clamps. * Anti-seize * Mold Release

Net Wt. 14.0 Oz.

HEAVY-DUTY SILICONE LPS

FEATURES AND BENEFITS:

- Colorless & odorless. Dries nonstaining.
- Eliminates sticking, binding and squeaking.
- Excellent lubricity. Silicone-rich formula.
- Safe on most surfaces. Water-based formula.
- Meets or exceeds FDA regulation CFR 21-178.3570 for incidental food contact.

APPLICATIONS:

Plastic * Rubber * Most metals

Net Wt. 13 OZ.

J&B #	QTY
V41847	EA

12 a case

LUBRICANTS

SUPER LUBE

FEATURES AND BENEFITS:

- Superior to petroleum based lubricants; synthetic formula with Teflon in suspension reduces friction and wear.
- Lasts longer; won't dry out, wash away, run, drip or separate.
- Has a temperature range of -65 F to 500 F continuous and 650 F intermittent.
- Non-toxic, non-flammable, biodegradable. (Aerosol formula is flammable)
- U.S.D.A. H-1 listing (food grade).
- Prevents rust and corrosion.
- Safe on metal, rubber, plastic, wood, leather, fabric and painted surfaces.

APPLICATIONS:

Bearings * Pulleys * Conveyors * Valves * Pumps * Chains *
Gears * Cables * Lead Screws * Hinges * Locks *
Bushings * Linkages

Net Wt. 11Oz.

LUBRICANTS

WIRE PULLING LUBRICANT

3M

- A water-soluble, translucent white gel that is easy to handle, and apply to wire and cable without runs or drips.
- The consistent gel does not liquefy, or separate with hot or cold aging. It stays thick, smooth and ready to apply.
- The lubricant produces a low coefficient of friction that lessens the chance of wire damage from high pulling forces.
- Able to withstand high and sub-freezing temperatures.

APPLICATIONS:

- Recommended for use with all types of cable. Compatible with Thermoplastic, Thermosetting, Rubber or equivalent wire and cable jackets. To use, apply liberally to the cable jacket during pulling. For long, difficult pulls, place some 3M
- Lubricant directly into the conduit and spread in front of the cable during the pull.

LUBRICANTS

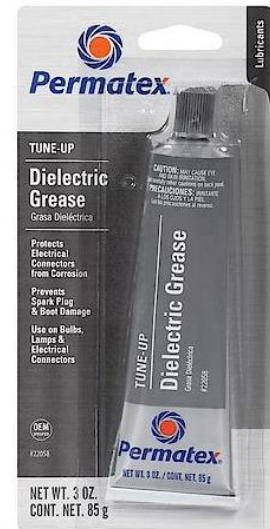

DIELECTRIC TUNE-UP GREASE Permatex

FEATURES AND BENEFITS:

- Protects electrical connections & wiring from salt, dirt & corrosion.
- Extends the life of bulb sockets.
- Prevents voltage leakage around any electrical connection.
- Prevents spark plugs from fusing to boots.
- Required for modern high energy ignition systems.

APPLICATIONS:

Marine and automotive electrical connections, spark plug boots, trailer hitches, battery terminals

Net Wt. 3 Oz.

J&B #	QTY
V20500	EA

6 in a case

SILICONE LUBRICATING COMPOUND

FEATURES AND BENEFITS:

- A transparent, heavy consistency silicone grease.
- Reconditions rubber and vinyl.
- Can be used on: electrical connections as a dielectric grease, fan belts, rubber brake parts, o-rings, etc.

8 Fl. Oz.

LUBRICANTS

LUBRIPLATE MAG-1 POLYMER Extreme Pressure Grease Cartridge

FEATURES AND BENEFITS:

- A multi-purpose, non-corrosive, extreme pressure, water resistant grease.
- Prevents wear and corrosion for general lubrication of equipment operating in temperature extremes.
- Temperature range = -60F(-51C) to +300F(+149C).

APPLICATIONS:

Industrial * Automotive *
Construction * Marine and Farm
Equipment

Net Wt. 14-1/2 Oz.

J&B #	QTY
40918	CS/10
Cannot break case	

DIELECTRIC SILICONE GREASE

FEATURES AND BENEFITS:

- Insulates, lubricates and protects electrical systems.
- Silicone bases grease protects electrical connections against moisture and corrosion.
- Lubricates electrical connections for easy assembly & disassembly.
- Lubricates and helps preserve wires and o-rings made of rubber, vinyl and plastics.

APPLICATIONS:

Ignition systems * Electrical assemblies & terminals * disconnect junctions *
cable connectors * battery terminals * head lamps * tail lamps * backup lights

Net Wt. 8 Oz.

J&B #	QTY
9444	EA

6 per case

LUBRICANTS

LUBRIPLATE NO. 105 Motor Assembly Grease

FEATURES AND BENEFITS:

- White, waterproof, grease-type lubricant, possessing exceptional anti-seize properties.
- Provides instant lubrication before motor oil has separated.
- Will not rip, ravel, run down, wash off, dry out or freeze.
- Temperature range -30 F to 170 F.
- N.L.G.I. # 0 Density.

APPLICATIONS:

Press fittings * Shackle pin and spring assemblies * Wheel and nut assemblies * Door hinges * Striker points * Distributor Cams * Battery Terminals * Anti-seize applications * General rust proofing of parts and tools * Engine Bearings * Cylinder Walls

Net Wt. 10 Oz.

J&B #	QTY
38910	EA

12 in a case

LUBRIPLATE NO. 930 - AA Grease Cartridges

FEATURES AND BENEFITS:

- Ideal multi-purpose, high temperature, extreme pressure, water repellent, protective lubricant.
- Temperature range of 0 F to 500 F.
- N.L.G.I. # 1 Density.

APPLICATIONS:

Industrial * Automotive * Construction * Marine and Farm Equipment

Net Wt. 14-1/2 Oz.

J&B #	QTY
39180	CS/10

LUBRICANTS

RED GREASE

FEATURES AND BENEFITS:

- All-purpose non-melt grease specially formulated with extreme pressure and anti-wear additives to provide heavy duty service.
- Exceptional adhesive-cohesive properties.
- Resists most acids, salt-spray, weather, dirt, dust, steam and oxidation.
- Performs at a wide variety of temperatures up to 550 F.
- N.L.G.I. #2.

APPLICATIONS:

Automotive * Trucking * Farms * Bottling Plants *
Dairies * Industrial * Marine * Construction * Aircraft *
Food Plants * Lumber Mills * Mining * Air Conditioning *
Steel Mills

14.5 Oz. Cartridge

J&B #	QTY
9368	EA

24 in a case

SUPER IMPACT GREASE

FEATURES AND BENEFITS:

- Multi-purpose non-melt grease fortified with special additives enabling it to withstand heavy impact and pounding pressures common to heavy equipment.
- Anti-spatter capability; grease will stay in place and not spatter or pound out of the bearing or fitting.
- Superior water resistance; resists most acids, salt spray, steam, dirt, dust and weather.
- Special rust and corrosion inhibitors.
- Performs at a wide variety of temperatures up to 550 F.

APPLICATIONS:

Automotive * Trucking * Industrial * Marine *
Construction * Aircraft * Food Plants * Dairies

PROTECTANTS & COATINGS

SILICONE BRAKE LUBE

FEATURES AND BENEFITS:

- Reduces brake noise.
- High temperature stability.
- Won't swell or age rubber bushings.
- Prevents brake hardware failure.
- Used by OEMs.

APPLICATIONS:

Disc brakes * Caliper slides/sleeves * Pad/caliper contact points * Rubber bushings * Pins & o-rings * Metal side of brake pads *
* Drum brakes * Anchor pins * Self adjuster * Shoe contact points * Backing plate

Net Wt. 8 Oz.

J&B #	QTY
9443	EA

12 in a case

BRAKE & CALIPER GREASE CRC

FEATURES AND BENEFITS:

- Unlike silicone based brake greases, CRC's Synthetic Brake & Caliper Grease will not damage rubber or plastic components, freeze, melt or wash-out.
- Temperature range = - 30 F to 600 F
- Properly lubricating your brake system will ensure optimum braking efficiency, even pad wear and extended brake life.
- Formulated from proprietary bases, extreme pressure additives, molybdenum disulfide, graphite and PTFE.

APPLICATIONS:

All disc, drum and ABS brake systems

Disc Brakes

Shimmed disc brake pads
Rotor hats (underside)
Caliper slides, bolts & pins
All metal-to-metal contact points

Drum Brakes

shoe landings (Bosses)
Brake hardware
Parking brake hardware & cables
Drum brake adjusters

Net Wt. 12 Oz.

LUBRICANTS

MARINE GRADE NON-METALLIC Anti-Seize & Anti-Corrosion Compound

FEATURES AND BENEFITS:

Designed to give optimal performance in harsh Marine environments. It has been specifically engineered to withstand wet, humid conditions in both fresh and saltwater.

Will protect parts under extreme pressure and heat conditions. Contains grease designed with advanced rust and corrosion inhibitors which have been selected for their ability to function in wet environments and withstand salt water exposure for long periods of time.

Contains hybrid grease along with a high non-metallic solid content that will act as an electrical insulator between dissimilar metals inhibiting galvanic corrosion.

- Protects assemblies in wet humid conditions
- Versatile, works on small and large assemblies
- Reduces friction
- Speeds disassembly
- Inhibits galvanic corrosion between dissimilar metals
- High resistance to seizing, galling, and cold welding
- High resistance to salt water corrosion
- Compatible with all types of metals and most plastics
- Non-hardening and non-dripping

Net Wt. 6 Oz.

ADHESIVES

HIGH-TACK GASKET SEALANT

Loctite

FEATURES AND BENEFITS:

- Holds and seals all cut gaskets; Also a multi-purpose adhesive sealant; Dries fast to a highly tacky film.
- Seals studs and bolts, prevents thread corrosion.
- Resists gasoline, oil, kerosene, propane and butane.
- Easily removed with lacquer thinner.
- Temperature Range: -65 F to 450 F.
- Pressure Rating: 0 to 5000 psi.
- Contains no CFC's harmful to the environment.

APPLICATIONS:

Rubber, cork, paper, metal, felt, and asbestos gaskets *
Bolts * Sealing threaded and hose connections * water-proofing electrical terminals and wiring.

Net Wt. 9 Oz.

J&B #	QTY
38832	EA

12 a case

COPPER GASKET ADHESIVE

Loctite

FEATURES AND BENEFITS:

- Metallic copper particles help dissipate heat, prevent gasket burnout and improve heat transfer.
- Resists most shop fluids.
- Acts as an anti-seize on base connections and threaded fittings.
- Especially effective in sealing non-absorbent surfaces.
- Fills minor surface irregularities; seals instantly; Remains tacky to allow gasket repositioning.
- Temperature Range: -50 F to 500 F.

APPLICATIONS:

Cylinder heads * Gaskets * Carburetor Gaskets * Exhaust
Manifold Gaskets * Turbocharger Flanges * other high
temperature applications.

Net Wt. 9 Oz.

SILICONES

GENERAL FEATURES AND BENEFITS:

(For all silicones listed)

- Applies easily; Forms gaskets of all sizes and shapes.
- Dries tough and flexible for general sealing and bonding applications.
- Resists auto and shop fluids and vibration.
- Fills holes, stops leaks, repairs worn rubber parts; also seals joints, caulk and weather-stripping; Insulates electrical wiring.
- Dries in 1 hour; fully cured in 24 hours.

GENERAL APPLICATIONS:

(For all silicones listed)

Adheres to wood * glass * metal * plastics (including polystyrene and rigid PVC * tile * ceramics * leather * fabric * vinyl * rubber * concrete * & masonry.

Gasket applications include: exhaust manifolds * water pumps * timing chains * oil pans * thermostat housings * valve covers * axle covers * body seam seals * weather-stripping seals * repairs frayed wire * & hose leaks.

Waterproofs porous materials.

ULTRA BLUE RTV Silicone Gasket Maker

- Outstanding oil resistance and joint movement values.
- Sensor safe, low odor and non-corrosive.
- Guaranteed not to leak; bonds to oil contaminated surfaces.
- Temperature range: - 75 F to 500 F intermittent.

Net Wt 3.35 Oz.

J&B #	QTY
39424	EA

HIGH TEMP RED RTV Silicone

- Formulated for hi-temp applications, or heavy duty use.
- Coats pre-cut gaskets to increase reliability.
- Safe for use on all sensor equipped vehicles.
- Temperature range: - 75 F to 650 F intermittent.

Net Wt 3 Oz.

J&B #	QTY
39422	EA

LO-VOLATILE HIGH TEMP RED RTV Silicone (PERMATEX)

- Formulated for GM applications for oxygen sensor equipped engines.
- Withstands shock and high pressure.
- Use where superior temperature resistance is required.
- Temperature range: - 75 F to 650 F intermittent.

Net Wt 3 Oz.

J&B #	QTY
39426	EA

45710	EA

ADHESIVES

LOW VOLATILITY AEROSOL SILICONES

EXTENSION TIP	
38829	EA

*Not included with silicone

Net Wt. 8 Oz.

FEATURES AND BENEFITS OF AEROSOLS:

- Includes all general features, benefits and applications of tubular silicones.
- Forms gaskets that are uniform and even in shape for a proper seal - which cannot be done with squeeze tubes or gun-type cartridges.
- Reusable over long periods of time makes it the most economical type of dispensing system.
- Easy to use; works well in hard to reach and overhead areas.
- No voids, gaps or air bubbles, no waste, no mess, no lumps and no more dried up tubes or cartridges.

SPECIFICATIONS CHART

* Exceeds GM specification #9985443 which covers low volatility requirements for oxygen sensor equipped engines and hot oil and hot glycol resistance.

ADHESIVES

URETHANE SEALANT

Loctite

Net Wt. 10.2 Fl.Oz.

J&B #	COLOR	QTY
39066	Gray	EA

FEATURES AND BENEFITS:

12 in a case

- Urethane Sealant is a single-component, gun-grade polyurethane with outstanding flexibility, weatherability and adhesion properties.
- It is recommended for sealing and caulking applications, particularly in movable joints and exterior environments. Max temperature resistance 180 F.
- The cure of Urethane Sealant varies with temperature and humidity. Under normal circumstances (75 F/23C, and 50% relative humidity), it will have a heavy skin overnight or within 24 hours. In a typical joint of 1/2" width by 1/4" depth, it is functional in 3 days, and approx. full cure in 1 week.

APPLICATIONS:

Truck trailer * Automotive body joints * Expansion wall joints * Curtainwall panels * Fascia parapets * Galvanized metal * Glass * Automotive repair * HVAC duct sealing * General construction use * Filling concrete cracks * Installing skylights etc.

SUPER WEATHERSTRIP ADHESIVE

FEATURES AND BENEFITS:

- Bonds all types of gaskets to painted or unpainted metal surfaces.
- Adhesive stays permanently flexible & rubbery, never dries out or becomes hard.
- Easy to brush and spread.
- Extremely fast drying. Exceptional bonding strength.
- Waterproof, flexible (rubbery), resists oil, grease and solvents.

Net Wt. 5 Fl. Oz.

J&B #	COLOR	QTY
9242	Yellow	EA
20498	Black	EA

APPLICATIONS:

Bonds rubber and vinyl to metal * Weatherstripping * Dozens of automotive and shop uses.

ADHESIVES

RTV SILICONE GASKET MAKER

Loctite 5920

10.15 Fluid Oz.

J&B #	COLOR	QTY
40902	Copper	EA

10 in a case

FEATURES AND BENEFITS:

- The most advanced high performance, high temperature RTV silicone gasket available.
 - High temperature resistance = 600 F continuous 700 F intermittent.
 - Won't leak, crack or shrink. Non-corrosive. Safe on aluminum, iron and steel.
 - Low Volatile – meets G.M. volatility specifications.
 - Low odor and non-conductive.
-

ADHESIVES

SILICONE CARTRIDGES

10.3 Fluid Oz

- Includes all general features, benefits and applications of tubular silicones.
- Cartridges can be used for automotive, industrial and home uses.
- Requires no mixing & applies easily from conventional caulking gun.

	J&B #	DESCRIPTION	QTY	TEMPERATURE RANGE	SENSOR SAFE
12 in a case	38822	BLUE RTV SEALANT	EA	- 76 F to 500 F intermittent	NO

GASKET ELIMINATOR FLANGE SEALANT Loctite 518

FEATURES AND BENEFITS:

- Ideal for on-the-spot and emergency repairs, or when a conventional gasket is out of stock.
- Seals to 300 F (149 C) and fills gaps to 0.050” (1.27mm).
- Forms a flexible, solvent – resistant seal that will not tear or decay.
- Parts disassemble easily even after extended service.
- Recommended primer = 7649 (J&B# 41180).

Net 1.69 FL Oz..

J&B #	QTY
38934	EA

APPLICATIONS:

Can be used on a variety of metal surfaces, including aluminum.

ADHESIVES

RIGHT STUFF Caulking Style

FEATURES AND BENEFITS:

- Seals instantly. Forms reliable, long-lasting elastomeric rubber gaskets.
- Makes reliable gaskets in 1 minute. Oil, coolant & ATF resistant.
- Operates in environments to 450 F continuous; 500 F intermittent.
- Out-performs pre-cut gaskets. No leaks in over a million miles of fleet testing.

APPLICATIONS:

Industrial * Automotive and marine gaskets * Valve covers *
Gearbox covers * Pumps * Compressors * Oil pans * Mining &
Construction * Trucking & Transportation * Fleet Repair

ADHESIVES

GASKET SEALANT NO. 2

Loctite

FEATURES AND BENEFITS:

- Slow drying, non-hardening sealant for use on semi-permanent or flexible assemblies.
- Allows for easy disassembly if required.
- Use where sealing is more important than adhesion.
- Resists common shop fluids and fuels such as gasoline, kerosene, fuel oils, engine lubricants, anti-freeze, grease, mild acids and alkalis, etc.
- Withstands pressures to 5000 psi.
- Temperature Range: -65 F to 400 F.

APPLICATIONS:

Valve Cover Gaskets * Oil Pan Gaskets * Steam Lines *
Hose Connections * Threaded Assemblies * Flanges *
Ideal for metal-to-metal assemblies

Net Wt. 1-1/2 Oz. Net Wt. 3 Oz.

J&B #	SIZE	QTY

ULTRA BLACK GASKET MAKER

Permatex

FEATURES AND BENEFITS:

- Fast-curing formula is sensor safe, low odor and non-corrosive.
- Retains high flexibility, oil resistance properties through use of a patented adhesion system.
- Ensures extended drivetrain warranty compliance.
- Temperature Range: -65 F to 550 F intermittent.
- Ideal for maximum gap coverage.
- For heavy duty oil applications. MAXIMUM OIL RESISTANCE.

APPLICATIONS:

Valve Covers * Oil Pans * Intake manifold *
End seals * Timing covers * Transmission pans

Net wt. 9.5 oz

J&B #	QTY
45597	EA

ADHESIVES

AVIATION GASKET SEALANT

Loctite / Permatex

FEATURES AND BENEFITS:

- Improves reliability of seal on close fitting parts.
- Applied as a liquid; changes to a paste in a few seconds.
- Pressure resistant and leak-proof to high octane gasoline, grease and lubricating oils.
- Resists hot and cold water, anti-freeze, glycerin, fuel oil, kerosene, butane and other fluids.
- Pressure rating 0 to 5000 psi.
- Temperature range -65 F to +400 F.

APPLICATIONS:

Gaskets * Machined Surfaces * Screw Thread Connections in Industrial, Automotive, Aircraft and Marine Engines.

HIGH TACK GASKET SEALANT

Permatex

FEATURES AND BENEFITS:

- Holds the heaviest gasket in place during assembly; assures correct gasket position on alignment.
- Firm setting, non-brittle and fast drying; never becomes hard, prevents seizing and permits easy disassembly.
- Waterproofs and protects electrical terminals and wiring.
- Will not be dissolved by gasoline, oil, kerosene, glycol, transmission fluid, brake fluid, anti-freeze, grease propane.
- Pressure rating 0 to 5000 psi.
- Temperature range of -65 F to +500 F.

APPLICATIONS:

Threaded fittings * Hose connections * Oil seals * Gaskets
* Intake manifolds * Weather-stripping * Terminal protectors

12 in a case

38834	EA/.25 PT.

ADHESIVES

THREAD SEALANT WITH PTFE

Loctite

FEATURES AND BENEFITS:

- Lubricates threads, prevents galling and corrosion and seals instantly.
- Remains pliable to prevent leaks caused by vibration.
- Adjustments may be made after application without damage to seal; non-hardening for easy disassembly.
- Resists temperatures of -65°F to +300°F and pressure to 5,000 psi.
- Not affected by water, steam, salt water, bleach, mild acids and alkalis.
- Will not contaminate potable systems; won't shred.

16 Fluid Oz.

APPLICATIONS:

Threaded Metal * Plastic Pipes * Flanges for Steam Systems * Plumbing * Heating * Air Conditioning * Irrigation * Appliances * Swimming Pools, etc.

12 in a case

J&B #	QTY
38804	EA/1 PT.

TFE PIPE THREAD SEALANT WITH PTFE

Anti-Seize

FEATURES AND BENEFITS:

- TFE is a superior grade, non-hardening, easy to apply, heavy duty pipe thread sealant.
- Non-corrosive and contains no solvents.
- Withstands temperatures to +500°F and pressures to 10,000 psi.
- Non-hazardous and non-toxic.
- TFE is recommended for pipe threads carrying water, steam, LP and natural gas, refrigerants, solvents, caustics, dilute acids, oils and diesel fuel.

16 Fluid Oz.

APPLICATIONS:

All pipe and threaded connections * Cast iron * Maleable * Brass * Copper * Stainless steel * PVC * CPVC * ABS * Polypropylene

THREAD SEALANT 577

Loctite

FEATURES AND BENEFITS:

- Medium strength, general-purpose sealant for use on coarse, threaded components.
- Color is yellow.
- Resists temperatures of -65°F to +180°F and pressure to 10,000 psi.

1.69 Fluid Oz.

J&B #	QTY
40395	EA

ADHESIVES

THREAD SEALANT 565

Loctite

FEATURES AND BENEFITS:

- Lubricates to prevent galling and thread corrosion.
- Seals instantly and resists most industrial solvents.
- Seals operating pressures to 10,000 psi.
- Sets to a pliable film that prevents loosening and leakage.
- Will not shred to contaminate systems and allows easy disassembly.
- Temperature range -65°F to 300°F.

APPLICATIONS:

Threaded Connections * Fittings * Pipes * Hydraulic
and Pneumatic Fittings * Steam and Water Lines

1.69 Fluid Oz.

J&B #	QTY
38802	EA

AST-SEAL STD

Anaerobic pipe sealant

FEATURES AND BENEFITS:

- Seals metal threads instantly.
- Prevents vibration loosening; does not plug up filters, valves or gauges.
- Resists water, chemical and oils.
- Low locking strength provides for disassembly.
- Temperature range -65°F to 375°F.
- Seals to 1000 psi immediately after application and up to burst rating of typical pipe after curing.

APPLICATIONS:

Threaded Connections * Fittings * Pipes * Hydraulic
and Pneumatic Fittings * Steam and Water Lines

1.69 Fluid Oz.

J&B #	QTY
20608	EA

INTER-MIX 5 Seam Sealer/Adhesive

FEATURES AND BENEFITS:

- Non-sagging, firm, semi-flexible adhesive/sealant used for sealing vertical and horizontal seams & joints on automobiles & trucks.
- Can be used to reinforce & eliminate flutter & vibration of body panel cross members.
- Automatic mixing system eliminates errors common in manual mixing.
- Working time: 5 – 10 Min. Sandable & Painting time: 20 – 30 Min. Handling time: 10 – 20 Min. Full Cure: 6 – 8 Hours.

Net Wt. 10 Fluid Oz.

(Comes with 2 static mixers)

J&B #	QTY
IES8412	EA

INTER-MIX 60 Hybrid Panel Bonding Adhesive

FEATURES AND BENEFITS:

- A heavy-bodied two-part high strength epoxy/urethane adhesive that will bond to: Cold rolled steel, E-coated steel, epoxy primed steel, aluminum, SMC, FRP (traditional fiberglass) & a wide variety of other plastics and metals.
- When used according to specific directions, it may be used in the replacement of: quarter panels, door skins, roof panels, truck box sides and other outer body sheet metal.
- Automatic mixing system eliminates errors common in manual mixing.
- Working time: 60 – 90 Min. Sandable & Painting time: 120 Min.

Net Wt. 10 Fluid Oz.

(Comes with 2 static mixers)

IDEAL FOR AUTO BODY SEALING

ADHESIVES

REPAIRITQUIK EPOXY PUTTY

FEATURES AND BENEFITS:

- After **10 MINUTES** the epoxy will harden and form a tenacious bond. After **1 HOUR** of hardening, it may be machined, ground, filed, drilled, tapped, threaded, and/or painted.
- Replaces lead as a machining aid; transfers masters shapes of dies.
- Will plug or seal practically anything that leaks; mend almost anything that is broken (safe for lines carrying potable water).
- Excellent for rebuilding parts and as an all purpose adhesive for metals, wood, glass, masonry & plastics.
- Will **not shrink** or pull away. Contains no solvents. Will not rust.
- Resists temperatures up to 300°F intermittent.

APPLICATIONS:

Plumbing repairs * electrical * auto repair * underwater repair *
custom formed gaskets * refabricate small parts * many dieshop uses

4 Oz. Tube

SUPER GLUE 495

Loctite

FEATURES AND BENEFITS:

- Cure speed fixture 20 seconds, full 24 hours.
- Temperature range -65 F to 180 F. Strength 2,750 psi.
- Instant adhesive is designed to bond rubber, metal and plastic parts with gaps to 0.004 inch.

3 gram tube

APPLICATIONS:

Rubber Belts * Bumpers * O-rings * Metal Handles *
Parts * Wires * Plastic Nameplates * Signs * Trim * etc.

J&B #	QTY
9170	EA

SUPER GLUE 409

Loctite

FEATURES AND BENEFITS:

- Cure speed fixture 75 seconds, full 24 hours.
- Temperature range -65 F to 180 F. Strength 3,200 psi.
- Instant adhesive is a general purpose cyanoacrylate adhesive gel. The gel consistency prevents adhesive flow even on vertical surfaces.

3 gram tube

APPLICATIONS:

Rubber Belts * Bumpers * O-rings * Metal Handles *
Parts * Wires * Plastic Nameplates * Signs * Trim * etc.

J&B #	QTY
45706	EA

SUPER GLUE GEL

FEATURES AND BENEFITS:

- Will not run or drip overhead or on vertical surfaces.
- Will not soak into substrates. Quick Gel sits on the surface to provide bonds on a broader range of substrates.
- Fills larger gaps than ordinary adhesives. Close tolerances are not as critical for a successful bond.
- Extra strength - bonds in seconds - will not string.

APPLICATIONS:

Wood * Metal * Rubber * Leather * Plastics * Textiles *
Vinyl * Ceramics * Paper * Fabric * Brick * Cork * China

J&B #	QTY

STRIPPED THREAD REPAIR Form-A-Thread

FEATURES AND BENEFITS:

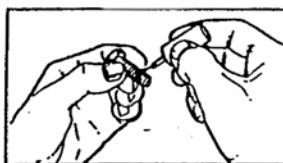

- Permanently repairs stripped threads and fasteners in five minutes; No inserts or special tools required.
- Adheres to most metals (aluminum, iron, steel, brass, magnesium, copper) and woods.
- Shop fluid resistant; most solvents and oil such as motor oil, glycol, diesel fuel, gasoline.
- High temp formula; -65 F to 300 F (350 F intermittent).
- High strength; allows up to 128 ft. lb. torque.

APPLICATIONS:

Carburetor to manifold studs * distributor clamp bolts *
oil drain plugs * intake manifold bracket fasteners, etc.

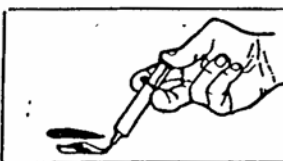

Step 1) Clean area.

Step 2) Apply release agent.

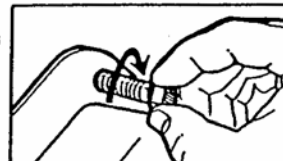

Step 3) For through holes, seal one end with tape.

Step 4) Mix equal amount of compound.

Step 5) Fill damage with FORM-A-THREAD™ compound.

Step 6) Twist bolt into compound.

* Thread sealant sticks available on page 389

ADHESIVES

C5-A COPPER ANTI-SEIZE STICK

Loctite

FEATURES AND BENEFITS:

- Prevents rust, corrosion, seizing and eases disassembly.
- Reduces friction and wear to critical parts.
- Buttery texture ideal for both coarse and fine threads.
- Exceptional lubrication properties.
- Temperature resistance = 1800 F (982 C).

20 Grams

APPLICATIONS:

Copper * Brass * Cast iron * Alloys * Stainless steel * plastics *
Non-metallic gasket materials * Bolts * Bushings * Pipes * Fittings *
Flanges * Gaskets * Headers * Manifolds * Nuts * Studs *
High heat ovens * Crane assemblies * Turbine studs * Coal crushers *
Casting and molding equipment * Heat exchangers

ADHESIVES

PST 561 THREAD SEALANT STICK WITH TEFLON

Loctite

FEATURES AND BENEFITS:

- Immediate low pressure sealing to 100psi.
- Controlled lubricity prevents galling.
- Protects threaded areas from rust and corrosion.
- Provides exceptional fluid compatibility and chemical resistance.
- Will not contaminate or clog lines.
- Eases disassembly.
- Temperature resistance = 300 F (150 C).

19 Grams

APPLICATIONS:

Seals all types of metal tapered threads and fittings to NPT specs. *
Ideal for use in a broad range of industries including Chemical processing, Waste water treatment and Automotive.

J&B #	QTY
45748	EA

QUICKSTIK 668 RETAINING COMPOUND HIGH TEMP

Loctite

FEATURES AND BENEFITS:

- Bonds non-threaded, cylindrical metal assemblies with gaps up to 0.005" diameter.
- Provides typical shear strength of 1,870 psi after 24 hours.
- Prevents fretting and corrosion of metal assemblies up to 400 F (204 C).
- Set-up time / full strength: 30 minutes / 24 hours.

19 Grams

APPLICATIONS:

- * Fills the inner voids in close-fitting press fits, keyways and splines.
- * Mounts bearings and bushings * Makes press fits even stronger

45753	EA

ADHESIVES

QUIKSTIK 548 GASKET ELIMINATOR FLANGE SEALANT

Loctite

FEATURES AND BENEFITS:

- Designed for rigid flange assemblies.
- Forms a flexible, solvent resistant seal.
- Offers excellent oil resistance on rigid flange sealing.
- Seals up to 300 F (149C).
- Fills gaps to 0.010".
- Sealing time > 3 hours with or without primer.

19 Grams

APPLICATIONS:

- * Formulated with excellent oil resistance for rigid sealing, for example on transmissions and cast metal housings. * Ideal for on-the-spot repairs or when a conventional gasket is not available.
- * For use on a variety of metal surfaces, including aluminum.

J&B #	QTY
45754	EA

QUIKSTIK 534 HI-TACK GASKET DRESSING

Loctite

FEATURES AND BENEFITS:

- Allows a precut gasket to be positioned holding it in place for assembly
- Holds aggressively yet still allows for responding of the cut gasket.
- Seals up to 300 F (149 C).
- Offers added control and ease of use.
- Sealing time: 5 minutes to set.

19 Grams

APPLICATIONS:

- * Seals and bonds rubber, cork, paper, felt and metal gaskets.
- * Ideal for use in applications requiring oil resistance.

INSECTICIDE / HERBICIDE

WASP & HORNET KILLER Spectracide Pro

FEATURES AND BENEFITS:

- Instant kill; up to 20 foot jet spray.
- Non-conductive dielectric breakdown voltage of 47,300 volts.
- Kills the entire nest.
- Kills returning wasps and hornets for up to 4 weeks.

APPLICATIONS:

Hotels * Motels * Homes * Greenhouses * Food
Packaging and Processing Plants * Dairy Plants *
Institutional or Office Buildings * Industrial * Automotive

ROUND ONE Non-Selective Weed Killer

FEATURES AND BENEFITS:

- This product is a nonselective herbicide that is diluted & applied to the foliage of actively growing weeds as a spot or broadcast application.
- It is absorbed by the leaves & moves throughout the stem & roots to control the entire plant. Visible symptoms may require a week or more to appear, with burndown usually occurring in 2 to 4 weeks.
- Symptoms are a gradual wilting & yellowing of the sprayed plant followed by deterioration of both shoots & roots.
- This product has no herbicidal activity in the soil & will not wash or leach to affect nearby vegetation.
- THIS PRODUCT CAN INJURE OR DESTROY ALL VEGETATION CONTACTED. AVOID SPRAY DRIFT CONTACT WITH DESIRABLE LAWN GRASSES, FLOWERS, VEGETABLES, SHRUBS OR TREES. DO NOT CONTACT GREEN BARK OF TREES OR SHRUBS. IF DESIRABLE VEGETATION IS CONTACTED, WASH IMMEDIATELY WITH WATER.

HAND CLEANERS / POW'RKLEEN

THE BEST HAND CLEANER *HANDS DOWN!!!!*

- **CONTAINS NO KEROSENE:** Compounded from chemically pure ingredients. Pow'rkleen contains no kerosene, ammonia, detergents, alkali, or abrasives.
- **SKIN CONDITIONER:** Pow'rkleen contains soothing lanolin and acts as a conditioner.
- **PREVENTATIVE AID FOR SKIN INFECTIONS:** Pow'rkleen is a mildly medicated neutral cream that aids in preventing industrial dermatitis. Occupational skin infection, cracking, chapping and similar surface inflammations show less tendency to occur with constant use of Pow'rkleen.
- **NON-FLAMMABLE:** It is non-flammable, and can be used in industry, and in places where fire is a hazard.
- **WORKS ON DIFFICULT SUBSTANCES:** Although gentle, Pow'rkleen will act quickly on the hardest to remove substances such as Grease, Oil, Paint, Grime, Glue, Adhesives, Epoxies, Resins, Enamel, Dirt, Putty, Stubborn Stains, Most Inks, Rubber Cement, Tar, Gum, Carbon Black, etc. **Use with or without water.**
- All cans are 4-1/2 lbs.
